

THE DISALLOWANCE ACT

MR. WATSON HAS BEEN WORKING FOR A MONTH IN MANITOBA.

Mr. Charles Tupper points out the selfish position of the Province, but Sir Richard Cartwright refuses to be convinced.

OTAWA, May 26.—Disallowance had full swing today and except when the faithful Commons went out on the streets to throw up their hats and shout for the Governor-General, loyalty and the Queen.

Mr. Watson of Manitoba opened up the ball. Mr. Watson is one of those speakers who look with contempt upon the English grammar and who illustrate their arguments with frequent large flashes of eloquent slang.

Mr. Watson's remarks have assumed a serious phase in the Province of Manitoba. He said that the act was a violation of the Legislative demand that the disallowance of Manitoba railway charters should cease.

At the time of the inauguration of the Canadian Pacific Railway Manitoba protested against the disallowance of the act, but they were promised by the First Minister and the Hon. Thos. White that provincial interests would be protected.

The Manitoba Legislature at the time passed a resolution protesting against the act. He went on to say that the right of Manitoba to grant railway charters had never been abrogated and claimed that the act was a violation of the act.

At 12 o'clock the House was preparing to vote. The Government will be sustained by its usual majority.
