ON THE Philosophy of Marriage and the Secret Influences of Nature and Nurture.

With fifty Coloured Engravings on Steel. In a Series of Envelopes, price 2s.6d. sterling.

SELF-PRESERVATION: an Analytical Investigation of the Physiology and Functions of Marriage. In all the bearings in which it is important to the health and happiness of man, both as to the individual and the race, tracing their origin to the effects of climate, soil, food, and the influence of the reproductive system, or those studies followed by practical remarks, founded on twenty years experience in the treatment of impotence, nervous debility, local weakness, spermatorrhoea, syphilis, and all diseases of the urinary and generative system. Illustrated by fifty Coloured Engravings on the anatomy of the reproductive organs and their relative conditions in health and disease. By SAMUEL LA'MERT, M.D., No. 37, Bedford-square, London. Doctor of Medicine, Matriculated Member of the University of Edinburgh, Honorary Member of the London Hospital Medical Society, Licentiate of Apothecaries' Hall, London, &c.

The essential object of this treatise is to point out, the fearful consequences resulting from certain habits, irregularities and excesses, which have produced more misery in youth, degradation in manhood, and premature decay at all stages of life, than perhaps, any other class of disease known to modern pathologists. Its perusal is particularly recommended to persons entertaining secret doubts of their physical conditions, and who are conscious of having hazarded the health, happiness and privileges to which every human being is entitled.

The contents embrace the origin, effects, prevention and treatment of the deplorable catalogue of maladies connected with nervous debility, exhaustion of the vital energies, prostration of mental and physical capacity local and general weakness, acute and chronic spermatorrhoea, and their end less modifications. The treatment adopted is founded on experience gained in the most celebrated schools of medicine, and by the most eminent practitioners, both in Great Britain and in Continental Europe. Every peculiarity relating to the physiology, pathology, and general treatment of the diseases incidental to the generative system is carefully explained, and the means of immediate relief and ultimate cure described in detail. The professional reputation of Dr. La'Mert, who has taken the most distinguished medical and academic honours, at home and abroad, is in itself a sufficient guarantee that those who may place themselves under his care will, in every instance meet with that delicate consideration and inviolable secrecy which are so requisite in the treatment of these cases.

CAUTION.—In consequence of the extensive sale of this work, which has now attained its sixteenth edition, several spurious and imperfect copies are in circulation. The genuine edition can be had only from the Author or his advertised agents. The work may be had in St. John, f. H. Chubb & Co. price 2s. 6d. stg.; Halifax, Messrs. Norton & Co.; Quebec, at the Gazette Office; Montreal, Mr. Day, on bookseller.
