

Local and Other Matter.

To CORRESPONDENTS.—All matter intended to appear in the MONITOR must reach us not later than Monday's mail.

The interesting letter of a reporter on the N. S. C. Railway reached us yesterday too late for this issue. It will appear next week.

—We are glad to announce that the sale of pews in the renovated Baptist meeting house in Nictaux, which took place on Monday last realized from \$50 to \$100 each making a sum very nearly equal to the whole cost of the extensive changes wrought in the building. The opening services are referred to by our Nictaux correspondent in another column.

—The International S. S. Company are now (during the month of November) running excursion trips from St. John to Boston and return for five days, which affords a good chance to visit the great Boston Exhibition now being held in Boston. All the world is going to see this unique exhibition.

ACCIDENT.—On Friday last a little brook of Mr. J. Watson Sanford of Cold Brook two years of age fell into a well, and being recently burned falling a distance of eight feet. The little fellow struck his head on a stone fracturing his skull. Dr. Fitch was called and the child is doing well.—Western Chronicle.

SUB SUICIDE IN HALIFAX.—Charles E. Crahan, deputy promotor of the Superior Court, was yesterday morning taken to the hospital by a severe attack of cholera morbus, which was caused by drinking, it is said, of water for the preparation of the rash act. He was 37 years of age, possessed of many good qualities, and will be much regretted by many sincere friends outside his immediate family.

THE MONTREAL STAR XMAS NUMBER.—Although no public announcement has been made regarding it, the trade has found out that the coming Christmas number of the Montreal Star is to be the most beautiful and interesting ever seen in this country. The demand for it is simply immense, many dealers ordering in thousands of copies each. Parties in the States are endeavoring to secure the exclusive sale in that country. It will be ready early in December.

FIRST MERINO SHEEP IMPORTED.—Professor Bell's magnificent estate of Belvoir through is constantly growing more beautiful through the judicious management of the general proprietor's wife. Twenty-one prize Merino sheep and a beautiful flock of 100 were imported by him from New England States by the Marlon on Saturday night. They were much admired by those who saw them on the wharf. The beautiful pair of horns and peculiar white wavy wool on the ram make him quite a curiosity in the country.

—The W. C. T. U. meeting in the Court House on last Thursday evening was so far at least as members were concerned, a complete success. Seats had to be introduced into the aisles to accommodate the late comers. Speeches were delivered, addresses and circulars were read, and very good vocal music occupied the interstices. We had the program of the proceedings, but by some neglect or oversight it was not sent, and we have thus been prevented from laying it before our readers.

PERSONALS.—The Hon. W. W. Sullivan has been appointed Chief Justice of Prince Edward Island.

Hon. A. A. Davidson, Q. C. M. L. C. of New Brunswick, is dead, after a short illness.

Rev. Dr. Archibald, a native of Truro, and nephew of Sir Adams Archibald, died suddenly at St. John's on Monday week. His body was brought home for burial.

E. D. Burgess, a native of this province and formerly a school teacher at Ellershouse, in Hants County, who has spent several years domiciled in Newfoundland, was elected to the Assembly of that Province, for the district of St. John's, by a majority of more than 1100 votes. Good for Ned!

Thomas B. Smith, of Windsor, has a new volume in press entitled "Base Canada" which will be ready for sale in a couple of months. As the author is an old friend of ours we cordially wish him success in this new literary venture.

Nicholas Davis, of Walton, in Hants County, measures six feet, eight inches and a half in height, which, we believe, is at least one inch more than any Annapolis man can measure.

Alexander Grant was the other day chosen first mayor of Stellarton by acclamation.

The Rev. W. H. Robinson, who, since his return from the Pacific coast has been supplying a vacancy at Free Church, Yarmouth County, was in town a day or two last week. We understand the Rev. gentleman has received a call to the pastorate of the Free Church, Yarmouth, and that it is probable that he will accept it.

Mr. J. R. Elliott, of Clarence, has returned home after about eight weeks absence on a visit to New York, where his forthcoming volume has been placed in press with the Putnam Company. He informs us that it will make its appearance about the New Year. It is to be hoped that both he and his publishers will find profit in the venture.

Mr. W. H. McKenzie, of this vicinity, has returned from Cape Breton, where for the past six months he has been employed in the lumber business. He reports a successful season's work, notwithstanding some losses sustained in the early part of operations this spring. He is welcome home again.

Mr. Goudge, daughter of the late Dr. Honeyman, has been appointed curator of provincial museum—sic her late father-in-law's interior.

Mr. George Nichol, of Bear River, who was formerly well-known in this town, has been stricken with paralysis so severely that no hope is entertained of his recovery.

Mr. C. S. Phinney, formerly of Paradise, but more recently of Lawrencetown, is, we regret to learn, very ill and has been a week or two past. We earnestly hope our esteemed friend has felt the worst of his painful troubles, and that he is on the way to full recovery from it.

Mr. J. N. Whitman, we learn, is about to remove temporarily to this town. He will occupy the Rectory during the winter.

Miss Laura Deacon, of Shelburne, while catching smelts with a hook and line, at that place, stepped off the wharf into five feet of water, but was rescued by an Indian.

Mr. F. W. Harris left town yesterday on route for Halifax, and from that city he will make a tour along the shore route to Yarmouth in the business interests of Seaton & Mitchell, merchants. We wish him all the success he merits in his new role of traveler.

Miss Fullerton and Miss Martha Tupper of Round Hill, were in town on Monday soliciting subscriptions for a Memorial Church for the town of Grandville.

Mr. Joseph C. Purdy, was in town on Monday.

The Hon. George Whitman and wife paid a few hours visit in Bridgetown on Monday.

The Rev. J. H. Saunders, until recently pastor of a Baptist Church in Digby county is a native of this country. He has become assistant editor of the Messenger & Visitor.

Dr. William Wilson, law clerk to the House of Commons in Canada, died instantly in New York on the 17th inst. The deceased was a barrister-at-law, as well as a physician.

THE LAST OF THE STAGS.—Mr. Edward Rice, who resides near this place, has laid on our table a fine bunch of Mayflowers, picked by him on Monday, 18th inst. They were in full bloom and very fragrant.

N. S. C. RAILWAY AT WORK.—On Friday last the new locomotive "Mahone," No. 5, brought a train of eight flat cars to town, most laden with freight. Two of the cars were loaded with hay which was readily for \$4.00 per cord delivered, which is the lowest price known for some time, and more cars were loaded with hay, timbers and the balance with the frame and necessary for the new station house.—The work of the railway is finished.—Lunenburg Argus.

—The Government Grant for the past term will be paid (D. V.) to teachers on their written order at the office of J. G. H. Brown, at the office of the Registrar, on the 30th inst., between the hours of ten and three o'clock; at the American House in Annapolis Royal, Monday, Dec. 3rd, between the hours of ten and twelve o'clock; and at the office of H. B. Short, in Digby, on Tuesday, Dec. 3rd, between the hours of ten and twelve o'clock.

WILMOT SEA-TYPHOID.—As is now well known, typhoid fever is occasioned by impure water, and is also well known to be caused by the water of the springs of Miramichi, which is so full of impurities, and is also well known to be caused by the water of the springs of Miramichi, which is so full of impurities, and is also well known to be caused by the water of the springs of Miramichi, which is so full of impurities.

FIRE AT PARADISE.—On Wednesday afternoon, last week, the horse stable of Mr. J. G. H. Brown, at Paradise, was destroyed by fire. A horse was burnt in it, and a new wagon worth \$100 was also consumed.

WOMAN NEAR AT HAND.—When has science failed to supply a felt want? We have seen in the case of a failure to be yet recorded, and thus it is that we predict it will not be many years before some discoverer will find a method for the extraction of the impurities of various substances—notably clay, with which it is generally combined—at so cheap a rate as to be used in the arts. The following is a letter from the Halifax Morning Chronicle well illustrating one of the cases in which it may be applied:

"Aluminum was only discovered in 1825, and it was not till 1845 that any method was discovered of producing it in quantities, and no method has yet been discovered of producing it at so cheap a rate as to admit of its general use. It is nowhere found in a native or free state, but always in combination. It is scattered throughout the whole earth and is a constituent of every clay bed. Aluminum is a white metal with a metallic lustre when polished, is hard, stiff, strong and so ductile that it can be drawn out into the finest wire, and is as tough as the thinnest leaf, and resists the action of the air whether dry or wet, and withal is as light as glass or china-ware, being only about two and a half times as heavy as water. It is a wonderful combination of useful qualities, and it will readily be seen that it is one of the most valuable metals known to man, and that it is one of the most valuable metals known to man, and that it is one of the most valuable metals known to man.

A GIRL SAVED.—The St. Andrews Beacon says that the village of Letete has been thrown into a terrible state of excitement by a suicide which occurred there on Saturday last. A young woman named Leslie, who had been employed at Eastport, has recently shown evidences of mental derangement. Finding that she was growing fat, she had written to her mother to send her back to her home at Letete. She got back on Friday last, but she appeared so fat that her mother refused to believe that there was anything wrong with her. When the family retired on Friday night, the young woman appeared in the kitchen, and she was seen to be once given, and the missing girl was found lying in a shallow pond of water, near the wharf, on the morning of the 15th inst. St. George's was sent for to hold an inquest.

The Murder of a Yarmouth Man.—A late despatch from Tacoma says: A confession has been gotten out of one of the men confined in the jail for the murder of young Enoch Crosby. The correspondent got it upon good authority that a good sign of the name of Curley was used, the suspects, on some frivolous charge, and that through his persuasion power Stove peached on his pals. It is not known yet how he accomplished it, but that he secured a confession from Stove is certain. It is thought that Stove was promised a part of the reward, which amounts to \$2,700, and release from punishment, if he would acquit. The story of the confession is a long one. Briefly, it is said to be this: Hoyt and Stove were directly concerned in the murder. They were in company with one particular, various stories to the contrary notwithstanding. They wanted money, and were determined to get it at the point of the revolver. There was no intention of committing murder. Hoyt had the revolver and was to cover the man whom they intended to rob, while Stove searched the person for money and valuables. They mistook young Crosby in the darkness for a much richer man, and they proceeded to carry valuables on his person. They confronted him and Hoyt ordered him to throw up his hands. Crosby made a motion, his hands were seized, and he was bound. He was not fired upon, and he was not killed. He was taken to the wharf, and he was thrown overboard. He was found floating in the water, and he was rescued by a fisherman. He was taken to the hospital, and he died.

LET HER CHILD BEHIND.—There is in the Catholic orphan home a little stranger who only arrives there at the age of two, and whose troubles have begun very early in life.

On Monday five young women, who arrived by the steamer Peruvian from England that morning, made application at the Samaritan House for rooms as boarders. Four of them informed Mrs. Watson, the proprietress, that they would leave on the following morning, while the fifth—a good looking girl about 20 years of age, who had a baby with her, asked to remain until Thursday morning. On Tuesday morning she left the house, and she was seen with the other women, ostensibly to see them off, but to the surprise of good natured Mrs. Watson, she did not return, and the baby was left on the street.

FOR FROST BITES.—There is no better remedy for frost bites, chilblains, and similar troubles than Hagarty's Yellow Oil. It also cures Rheumatism, lumbago, sore throat, deafness, and lumbago and pain generally. Yellow Oil is used internally and externally.

THE LADY GODIVA HAS COME.—The Lady Godiva has come in completely concealed her lovely person. Since Ayrton's cigar came into use such examples are no so rare as formerly. It not only promotes the growth of the hair, but gives it a rich, silken texture.

THE GERMAN KATERS IN QUEBEC.—The North German Gazette says: Emperor William on his arrival at Athens sent the following despatch to Prince Bismarck: I have just arrived at glorious old Athens after a voyage of intoxicating beauty. After a splendid reception from princes and people, your telegram was my first greeting from home. Heartily thanks for it. My first word back to the Fatherland is a salutation to you sent from the city of Tericles, from the pillars of the Parthenon, the sublime aspect of which deeply impressed me.

—We wish to say to the public that we guarantee there is nothing sold in bottles of hair and beauty preparations than our own. One bottle cured my horse this summer that was about gone with colic in less than fifteen minutes. Try it and you will see no other.

—The Chinese minister to the United States wears an enormous diamond ring, the stone of which is of immense size and very brilliant. The setting, instead of the usual gold, was made of wood, the wood of which the ring was made is very old—said to be 1,000 years, and its rarity makes it a precious stone. It is worth \$100,000.

THE LADY GODIVA HAS COME.—The Lady Godiva has come in completely concealed her lovely person. Since Ayrton's cigar came into use such examples are no so rare as formerly. It not only promotes the growth of the hair, but gives it a rich, silken texture.

THE GERMAN KATERS IN QUEBEC.—The North German Gazette says: Emperor William on his arrival at Athens sent the following despatch to Prince Bismarck: I have just arrived at glorious old Athens after a voyage of intoxicating beauty. After a splendid reception from princes and people, your telegram was my first greeting from home. Heartily thanks for it. My first word back to the Fatherland is a salutation to you sent from the city of Tericles, from the pillars of the Parthenon, the sublime aspect of which deeply impressed me.

—We wish to say to the public that we guarantee there is nothing sold in bottles of hair and beauty preparations than our own. One bottle cured my horse this summer that was about gone with colic in less than fifteen minutes. Try it and you will see no other.
