#### Scientific and Asoful.

To PREPARE SALMON.—If salmon is not put in the water in which it is to be boiled until the water is boiling the meat will be nicer in every way. It will be more firm, and keep its shape better.

TO KILL COCKROACHES.—Cockroashes may be destroyed by setting a trap with a basin half filled with beer on the floor on going to bed at night, and put some atrips of card or sticks up round it like ladders, for them to ascend.

them to ascend.

DIPHTHERIA,—Put one teaspoonful of flour of brimstone sulphur into a winegless of water; stir it with the finger and use as a gargle, swallowing some of it if possible. If a patient cannot gargle, take a live coal, put into a shovel, and sprinkle a spoonful or two of flour of brimstone upon it; let the patient inhale the fumes, and the fungus will die. In extreme cases how the sulphur through a quill into the throat, and after the fungus has shrunk give the gargle. has shrunk give the gargle.

has shrunk give the gargle.

GREEN TOMATO SAUCE,—One gailon of green tomatoes and one pint of onions chopped fine, two pints of vinegar, one pint of sugar, two tablespoonfuls of salt, one tablespoonful of black pepper (ground), one tablespoonful of cloves (either whole or ground), one and one-half tablespoonfuls of table mustard, one tablespoonful red pepper, and boil all tog-ther until quite tender; it is best scaled up in tir-tight jars. This is a delicious scauce for freth meats in winter.

BREAKPAST MUFFINS.—One egg, two teacupfuls of sour milk, one-third of a teacupful for measure) of fried meat drippings, one small teaspoonful of salt, two teaspoonfuls of sode, and flour to make if about the consistency of cake. Beat the egg till light; add the milk, salt and flour and stir all till smooth; then stir in the gravy, and lastly the sode. Have the gem or millinatins hot and well greased; fill each, and take in a very quick oven.

WATERPROOF BLACKING .- Dissolve one WATERPROOF BLACKING.—Dissolve one onnee of boiax in water, and in this dissolve gum shellac until it is the consistency of thin paste haddlempblack to colour. This makes a chesp and excellent blacking for boots, giving them the polish of new leather. The shellac makes the boots or shoes almost entirely waterproof. Camphor dissolved in alcohol, added to the blacking, makes the eather more pliable and keeps it from cracking. One dollar will buy material enough for a gallon. for a gallon.

SOMETHING new in cake is devoutly desired by most housekeepers. Here it is :-Bakes in a large tin one cake which, when risers and baked, shall be not more than two inches deep. Take from the tin carefully, and frost thickly over the top with boiled frosting in which, directly after taking it from the stove, you have stirred English walnut meats. Chop the meats, not so fine, however, that they may not be readily dis-

frosting in which, directly after taking it from the stove, you have stirred English walnut meats. Chop the meats, not so fine, however, that they may not be readily distinguished. Cut is pieces about two inches wide, and good white cake receipt. Flavour with leably vanilla. This is delicious.

To make an appetizing beef stew, take out the bone and bind the pieces of beef tightly, putting a lemon, pared and cut in two, and some herbs in before binding. Place it in as small a stew pan or kettle as will allow of its being covered with water. Let it cook slowly and gently; do not add any water unless absolutely necessary. Slice a large onion and fry it brown, and add to the water also any sliced vegetables you choose; or cook the vegetables in a kettle by themelyes and serve on the platter with the beef. It you do not add any water you will have a very rich gravy, and a portion of it may be reserved for soup stock. it may be reserved for sorp stock.

it may be reserved for soup stock.
