British Columbia

**LUMBER, LATH, SHINGLES,
MOULDINGS, Etc.**

Since writing our former "ad" there has been a number of changes around our plant. Our manager is now big enough to wear pants, and everything else has grown in proportion. We have added to our facilities for handling lumber a number of new machines, among them being a planer which will dress a timber 24 in. square.

HENRY BYRNES, Selling Agent, WINNIPEG.

The "Kelsey" Warm Air Generators

In the Kelsey Warm Air Generator the fresh air is warmed by passing through the corrugated sections. Each section weighs 70 pounds. They are in direct contact with and over the fire.

In the No. 21 Generator the weight of the sections alone is over 160 pounds. Each section has 8 square feet of heating surface.

The Kelsey has 65 square feet of heating surface to each square foot of grate surface. This means 156 square feet of heating surface in the No. 21 Generator with 21-inch grate. The great heating surface and great weight of cast iron means economy of fuel, the purest quality of warm air and the most even temperature.
