CAFE DES GOURMETS.

ACKERMANN BROS.

It is a well-known fact that Coffee roasted in the ordinary manner and not placed in air-tight receptacles, is greatly deteriorated by evaporation of the aromatic particles, and as this process goes on for months afterwards, the result is apparent to every one.

WHAT IS CLAIMED FOR IT.

Being roasted and ground in a Patent Apparatus, packed in Glass Jars while hot and then hermetically sealed; by this process not a particle of the Aroma is lost.

It is much stronger, for the reason that it is roasted higher, after the manner of the French. They put no water with it while in the process of roasting, as is universally done to save weight.

It is more economical, as two-thirds of this is equivalent to one pound of the other Coffee.

It is clarified, has a beautiful colour, the flavour is delicious, wholesome and invigorating.
