DEMAND FOR CANADIAN HAY. The Trade Bulletin says: Both England and the United States are competitors for our sur-plus hay crop, and from information just re-ceived it is probable that the foreign outlet will take all that this Province can spare at good, remunerative prices. But if farmers should demand, as they frequently do, more should demand, as they frequently do, more than foreign buyers can pay, then in all probability they will have their hay on hand at the close of the season, instead of its value in cash. There have been purchases of pressed hay during the past week for shipment to Boston and other points in New England at equal to \$11 to \$12 per ton for good to choice timothy, and for English account there have here several transpositors within the part have been several transactions within the past few days on private terms, becaud te be at shout \$10.50 to \$11 per ton. The hay best suited for the English market requires to have a mixture of clover in it, whilst pure timothy is best adopted for the United States trad., For

Answer-Feed on large 7 december 1 and with fancy Elgin and Pennsyvania cleaning up promptly for the first time for two or three weeks past. Western, other than Elgin, declined to 283, but closing firm at that for high-flavored stock showing new milk. Lower grades have received more attention from out of-town trade, but supplies of such have been large and hellers urging siles at every opportunity, and prices it il ruling irregular. Western June and State fall made creamery tubs have ruled quiet and unchanged, but State creamery firkins are pretty well concentrated and working out fairly at rather better prices. The fairly at rather better prices. small lits of new State arriving are rarely entirely free from frosty defects, and bulk selling from 20s to though really fine from all new milk will bring 285 readily. Fancy old diary tubs and firkins are in few hands, and held above the market, but good useful grades have a fair outlet. Imitation creamery rather quiet, but really fine held steadily. Western diary and factory dull and tone easy, except low grades factory, which are not plenty and held firmly. Rolls in light supply and choice lots wanted at firm prices. Cheese has moved in a slow sort of condition and without any feature of a particularly event-ful or significant character, unless it be the continued indifferent feeling toward fine grades manifested by shippers. Advices from abroad have brought no limit that would permit of negotiation at present line of valuation, and generally seem to indicate that the foreign market is for the present well supplied with Canadian cheese, a portion of which is being used to hammer the position against the contracts falling due next month, and untilsome thing is done regarding the latter, it is thought unlikely that much change can take place. The stock handled here for export has in consequence been of the usual assortment of "cheap" goods, including the poorest of skins and at about last week's cost. Home calls were more or less irregular, but have in one way or another taken about the formeraverage quantity and handled all grades, with some of the fancies commanding quite a fracmand for calves, of which there were offered 20 tion above quetations, especially small sizes head, which sold at from \$3 to \$6 each as to tion above quetations, especially small sizes, duced. At the close the feeling looks easy. Nominally rates are unchanged, but top figures are more of a jobbing character than before, and full lines could probably he bought for less money on both white and

SHORTLY TO BE HELD IN MONTBRAL. A deputation consisting of Messrs. W. Rodden, of Plantagenet, Ont., R. Bickerdike, W. Munroe and S. O. Stevenson, waited upon the Hon. James McShane this morning, to request the conjugation of himself and the Provincial Government in be holding of a fat stock show fancy timothy, sales have been made at points; at an early date in this city. It was represent in the Eastern Townships equal to over \$12 per id that as Montreal is not only the commercial

inetron lie of the Dominion, but the chief poin;

for the shipment of cattle to the old country, litt was very desirable; that steery reflect should be made to promote the development of this very important enterprise. The deputation further represented that anumable integrated in transportation companies and agriculture had promised their active support to the undertaking.

The Honi Commission in reply expressed a hearty sympathy, with the project and promised to laythe matter before his colleagues on Tuesday morning next. He also consented to crant the use of the Exhibition grounds for the show. Mr. McShane added that asshe was the pioneer in the cattle shipping industry here and had watched its great development, he recognized at once the desirability of endouraging it by the good condition, so you do not have to run to a likekamith shop for every little thing that means the desirability of encouraging it by the means the deputation had suggested. After cordially thanking Mr. McShane, the deputation withdrew.

The exhibition will be opened on 23rd March.

LIVE STOCK MARKET.

Report from Montreal stock yards. Point St. Charles, for wick ending February 25th, 1883: Receipts for week, 631 cows, 170 sheep, 34 bors, 66 calves; left oversfrom last week, 153 cows; total for week, 781 cows, 170 sheep, 34 hogs, 66 calves; sales, 695 cows, 170 sheep, 34 hogs, 66 calves; sales, 695 cows, 170 sheep, 34 hogs, 66 calves. On hand for export, 54 cows; on hand for sale, 35 cows; total left over, 59 cows. There has been no improvement in trade during the week. The supply being in excess of the demand. Extra good cattle remain, medium and inferior grades lower. We quote the folthe demand. Extra good cattle remain, medium and inferior grades lower. We quote the following prices:—Exports, good average, 1,250 to 1,400, 3\frac{1}{2} to 4\frac{1}{2} cts.; do., medium average, 1,100 to 1,200, 3\frac{1}{2} to 4\frac{1}{2} cts.; butchers, good, 1,000 to 1,100, 3 to 3\frac{1}{2} cts.; do., medium, 2\frac{1}{2} to 3 cts.; do., culls, 2 to 2\frac{1}{2} cts.; sheep, good, 3\frac{1}{2} to 4\frac{1}{2} cts.; hogs, 5\frac{1}{2} to 5\frac{1}{2} cts.; calves, from \$5 to \$8.

The Toronto Empire says: Export dealers are bard at work in the Waterloa and Wallington.

The Toronto Empire says: Export dealers are hard at work in the Waterloo and Wellington districts making purchases of fat cattle forsping delivery. From what can be learned the prices paid have been \$5 to \$5.25 per cwt, but some buyers are reported to have gone as high as \$5.75 for choice cattle. Drovers who have been through the feeding sections say there are not half to many feeding as usual. Owing to the scarcity of feed farmers are inclined to sell as many as they can and as soon as possible. Speculation it now being indulged in as to the future of the trade and the advisability of buying now. A leading shipper remarked to day ing now. A leading shipper remarked to day that 1882 was the only year in which dealers who bought this early in the season made good profits.

M. H., Starnesboro-Being an old subscriber M. H. Starnesooro—Deing an on sucrement to The True Witness, I thought I would ask your advice in regard to a colt of mine, 21 menths old, which has struck its knee against the manger about three weeks ago; it is swelled the manger about three weeks ago; it is swelled to maiderable, hard and very warm; colt is not lame. I tried ordinary liminents, without any benefit. Please to snawer through The TRUE WITNESS, next number, what I should do to reduce the swelling and effect a cure, and you will greatly oblige your obedient servant, Michael Head. Answer—Apply a cold water bandage until inflammation subsides, afterwards apply tincture of iodine, rubbing in well two or three times a day for three or four weeks.

AN EXTRAORDINARY PHENUMENON

No other term than the above would apply to the woman who could see her youthful beauty fading away without a pang of regret. Many a woman becomes prematurely old and haggard because of functional derangement. What a pity that all such do not know that Dr. Pierce's Favorite Prescription will restore their organs to a normal state, and make colored; some of the latter it is thought at them youthful and beautiful once more !
