Concerning the difference between Archbishop Corrigan, of New York, and Dr. Burtzell a despatch from Rome says of the decree issued by the Pope on that subject that it is absolutely sweeping in its denunciation of Dr. Burtzell. It condemns the rabellious pastor of Buttzell. It condemns the rebellious pastor of Epiphany to acknowledge his submission to the Archbishop, to write a complete apology, and send it on at once to the Propaganda Fides. This powerful tribunal will then decide whether or not Dr. Burtzell cau be appointed to officiate in any place Archbishop Corrigan may choose to designate as the future home of the priest, and whether the retraction and apology are sufficient, whether he has actually made the present wows of submission to the Archbishop. necessary vows of submission to the Archbishop.
There is no truth in the report that the decree
vests the Archbishop with authority to discipline five other priests of New York. The Hudson priests mentioned in the rumor is not even under Archbishop Corrigan's jurisdiction; but it is evident this decree is fully intended to to serve as a warning to any of the priests in America who desire or feel in duty bound to follow the footsteps of Dr. Burtzell, and that is definite so far as the Archbishop's power is con-cerned. Whether the ecclesiastical law or the laws of the Propaganda Fides are or not at variance with each other is another question. The decree of Propaganda was referred to the Pape for his sanction, and he gave it last Sunday. Archbishop Corrigan is in Milan. He gues thence to Verona, from there to Munich. He will attend the Passion Play in Oberammergau. From there he will go to Vienna, and gradually make his way to Paris and Havre, from which port he will sail in the first week in September for America. Stanley's Wedding.

London, July 12 -The marriage of Mr. Henry M. Stanley and Miss Dorothy Tennant took place in Westminster Abbey this after neen. Mr. Stapley entered the Abbey at 1.50. He walked erect up to the transept, shewing ne signs of his illness, and took a seat near the alter. He were a frock coat with a white flower in the button hole and waite kid gleves. Count D'Arche, the re-presentative of King Leepoid of Balgiam, and the green's best man, Mr. Myers, a brother-in-law of Miss Tennant, and Dr. Parke, Mr. A. M. Jephsen, Capt. Nelson and Lieute. Stairs and Bonny, who were with Mr. Stanley on his last expedition into Africa, grouped themselves around Mr. Stanley. Five minutes later Miss Tennant, accompanied by her brother, Mr. Charles Coombe Tennant, extered the Abbey and walked with stately grace along the alale. Her train was norme by two of her nephews, dressed as pages. Their cestumes were of the time of Charles I, and consisted of white satin cavalier suits with large white hats ornamented with ostrich plumes. The brides maids were Miss Sylvia Myers, the bride's niece, and Miss Finlay. While moving to-ward the altar the bride stopped, broke the line of the procession and walked slowly to the tablet under which lies the dust of Livingstene and placed thereon a wreath of white flowers in the centre of which was a scarlet letter "L." Mr. Stanley has not recovered from his recent indisposition. The display of homage to the great explorer and the, perhaps too, early leaving a sick bed in order te prevent an heur's postponement of the wedding ceremony, preved no light ordeal te the strength of Mr. Stanley. The drop in the public cable of 6d to 43s has also produced an unsettled and weaker feeling, but it is a question if prices will go much lower. LEATHER.

There has been a very fair enquiry during the weed, both for black and sole descriptions. Sales of Buff have transpired at fully lic to 2c per lb. alvance upon prices ruling some time since, and quite an advance has been experi-enced in waxed upper, but to make it a paying business a further rise will have to be estaboutsides a turster rise will have so se escap-lished. Hides still continue high and are out of all proportion to the low price of leather. English buyers have relieved this market of considerable quantities of splits, buff and sole leather at very fair prices, and shipments of black are still going forward.

HIDES AND SKINS. There has been no change in the hide market, the feeling having continued firm and the advance in local green hides noted in our last has been maintained, notwithstanding the increased receipts, which have been principally from the country.
