

A Matter of Importance While Travelling

One of the first subjects to engage one's attention when contemplating a holiday or a visit to a summer or winter resort, or large city, is the subject of first-class hotel accommodation at a reasonable rate.

This has been provided in the city of Toronto, at the Walker House, "The House of Plenty," or the Hotel Carls-Rite, "The House of Comfort," where special attention is given to ladies and children travelling alone.

The two hotels are in a class by themselves, as they specialize on the American Plan system of hotel-keeping, where an inclusive rate is given from \$2.50 per day and upwards, according to location and accommodation provided. They also give a rate on the European Plan of from \$1.00 per day and upwards.

These two hotels hold the premier position in their class in the Dominion of Canada.
