It is a fact	44
Nervous prostration, or some illness, or delusion, serious mistake, or derangement	44
Sudden death by apoplexy, or heart failure, etc.	44
You can find many persons who are weak in some way with nails thus .	45
Their memory will often miss something	45
Power of attention is weakened . . .	45
This is a very serious state, and if I had found out only this one discovery .	46
This condition of the nails can be ob- served in many persons	47
I have noticed this condition also on many who suffered from insomnia .	48
Were mentally tired	48
Or who frequently forgot	48
It is a common experience with me . .	48
If you are intemperate	49
Physiology teaches us	49
This wonderful discovery	49
It will be one of the greatest helps in some ways to physicians and teachers	50
If you want to have good luck . . .	50
Reader, never forget	51
I can assure medical men, pathologists, teachers, etc.	52
It will require uncommon patience . .	52
You have a big advantage, and a great start over me	52
The powers of man	53
