LEJARS' URGENT SURGERY, Translated from the Sixth French Edition by W. S. DICRIF, F.R.C.S. (Eng.), Surgeon North Riding Infirmary, Middlesbrough, Consulting Surgeon Eston Hospital. This unique work is not intended solely or even perhaps chiefly for the Surgeon; but will be found invaluable to the conscientious General Practitioner, who is at any time liable to be confronted by emergencies demanding surgical interference. It also enables operating surgeons who are unacquainted with the details of Continental practice, to compare those methods with their own.

THE FECES OF CHILDREN AND ADULTS, THEIR EXAMINATION AND DIAGNOSTIC SIGNIFICANCE, WITH INDICATIONS FOR TREATMENT. By P. J. CAMMIDGE, M.D. (Lond.)

This volume was begun as a translation of Dr. Hecht's German work on the Feces of Children, but on consideration it was decided to widen its scope by the inclusion of a full, and thus make the subject more complete and generally useful.

Extensive use has been made of Hecht's work, and other writers have also been consulted, but very much of the matter is original, and the result of the author's own observations extending over a number of years.

Demy 8vo, with 76 Illustrations, 44 of which are in Colours. 7/6 net.
