Any theory other than the Christian paralyzed faith and prayer and destroyed total consciousness of God's presence in life. Humanity could not escape from the mysterious and mirac-ulous in life. The mystery of love could not be explained, and it mattered not what love a mother bestowed on her family, it could only be repaid corresponding love to a succeeding

Continuing, Mr. Bryan emphasized the doctrine of the vicarious atonement the doctrine of the vicarious atonement and showed how nine-tenths of Christ's teaching was connected with this life and one-tenth with the life beyond. Christ was entitled to be called the Prince of Peace, and would be known by that title more and more as millions found peace in Him and in His teaching, bring peace thruout the world. Some insurgent Republican senators also were said to have in view amendments to the anti-trust law, declaring all monopolies, whether reasonable or un-reasonable, to be in restraint of trade, and thus take from the courts the power of interpretation bestowed by yesterday's decision.
Representative Mann, Republican

leader of the house, gave the decision his hearty endorsement. He defended the court's action in the use of the word "unreasonable" and declared that if some such distinction had not been made in the opinion, the business world would have been thrown into chaos. In the senate to-day, Senator La follette, the insurgent leader, read Attorney-General Wickersham's statement expressing gratification at the decision and said it showed a change the administration's clews since President Taft sent his mesasge to congress. The indications to-night are that the cabinet as a whole, will favor a federal incorporation law rather than amenuments to the Sherman law.
