DAVIES CO. MAY BUILD

IN CHICAGO SOME DAY

That the William Davies Company had had the intention of building a large plant in Chicago, for more than a year, but had not taken any definite steps in that direction as yet, was the statement made last night by F. O. Mitchell, acting manager of company here, in the absence of E. C. Fox, the general manager, who is away on holiday.

"We have the intention to build, but we have not actually made any definite move in that direction. There are so many difficulties to be overcome, building restrictions, 'difficulty in getting the proper location, and other important matters to settle that the company has not yet started operations in that direction," said Mr.

The story which appeared in evening paper to the effect that the William Davies Co. was building a plant in Chicago to cost in the neigh-borhood of \$800,000 was stated by Mr. Mitchell to be at least a little

O.A.C. President Says They Would Greatly Relieve Farm Labor Shortage.

Guelph, July 17. - District representatives of the department of agriculture in conference at the O.A.C. this morning listened to addresses explaining the new standard dairy and hog feeds which are being placed on the market to alleviate the stock feed shortage. C. F. Bailey, assistant deputy minister of agriculture, explained the extent of the scheme which is being carried. is being carried out by the agricul-tural section of the Ontario resources committee. Prof. A. Leitch explained the formulas being used for the feeds. He announced that the hog feed would be available by Aug. 1, nine mills having entered into contracts with the department to manu-facture k. The price will be about

\$57 a ton delivered. The cost to the farmer, Prof. Leitch assured the representatives, would be less than a hog feed mixture of barley and oats.

"The housing branch of the Ontario resources committee would fail in its effort to contribute something toward solving the problem." ward solving the problem which faces this province today, if it did not take thoroly into consideration housing conditions in rural parts of Ontario,"
said Prof. Sissons, secretary of the
recently formed housing committee.
Dr. G. C. Creelman, who presided,
added that he believed proper houses
for hired men would greatly solve
the present acute farm labor shortage.

**ARTIN—Suddenly, in this city, on Wednesday, July 17, f918, Mary, beloved wife of Russell R. Martin, age 24 years.

**The chief topic of discussion at this afternoon.

Twenty-nine girls took the course, and stuck to the manual labor every day of the three weeks. "If the girls are farmers' daughters and have the scholastic attainments, they are going to be accepted at this college the same as a man," was the interesting an-nouncement made by Dr. Creelman in concluding his remarks.

Regarding the question as to whe ther women can be used to advantage in picking apples, Mr. H. Sirett said they would not be as good as men, because they can't handle the heavy udders and baskets, but as far as p.cking was concerned could cqualy as well.

Demand for Farm Labor.

The prevailing opinion among the district representatives present at the conference is that the demand for farm laborers is not going to be as great this year as last. All were of the opinion, however, that the demand in two weeks' time, when the real busy time n the harvest fields of Ontario is in will be much greater than at present. Several of the representatives spoke rather unfavorably of the assistance given by the city folks. One of the greatest difficulties met with by the district representatives and officials of the trades and labor branch of the government is to get the farmers to apply for help in time. Several me thods of overcoming this difficulty were discussed, and suggestions were made that a labor clearing market might solve the problem by having

Niagara Falls, July 17.-John Seilick, work being done by the farmerets. Dr. Creelman's testimony was very frank. "I have come up to the front mourners' bench and have been converted to women on the farm," said the commissioner of agriculture. He had been against the scheme when it had been broached first by Sir Wm. Hearst and was opposed to giving them a special course at the O.A.C., but the premier insisted, and the requirement for admittance was made as stiff as possible.
