PRESIDENT WILSON WILL BE RESPONSIBLE FOR A SEPARATE PEACE WITH GERMANY

Former Premier of France Says His Stubborn Refusal to Accept Reservations May End in Adoption of Lodge R esolution.

By Alexander Ribot, ex-Premier of France. Special Cable to Toronto World.

Paris, Dec. 23.—France regards with the gravest misgivings the Knox peace resolution, which, if adopted, will shelve the peace treaty permanently, according to the general belief here. President Wilson's stubborn refusal to listen to reason and accept the inevitable reservations proposed in the United States senate which are now favored by the allies, has apparently created the impression among the American people that peace will never be obtained by the peace treaty and must, therefore, he negotiated separately.

The Knox resolution adopted, peace will be proclaimed between the Urited States and Germany, and the responsibility for the grave consequences following America's separation from the allies will fall upon President Wilson.

The recent decision of the United States supreme court on the liquor question, in which it is pointed out, incidentally, that "a treaty is only a proposal until approved by the senate" is legally sound, as everyone in Europe knows. Nevertheless, the European precedent has always been to ratify treaties signed by the representatives of the contracting nations, in spite of

the most glaring flaws.

The continued refusal threatened by President Wilson to accept ratification of the peace treaty with reservations will not receive approbation of the
