

## REPORTS ON ESPIONAGE NOT YET PREPARED

Officials Make Excuses for Delay—  
Issues of Debutantes—An-  
other Park Wanted.

Procrastination dogs the movements of the board of control in regard to the Espionage problem. The subject was again discussed at their meeting yesterday, but no progress was made, and the chances of the city's case being ready for the meeting of the railway commission on Oct. 1 are very slender. The civil officials have not yet got their reports ready. Assessment Commission Forman has been unable to arrive at the approximate amount of the damages, he says, "owing to the meagre instructions received." The chief of police has not had time to prepare a list of accidents that have occurred on the Esplanade during the past ten years, and the railway commission will not accept a date for the conference with the city engineer.

City Engineer Rust informed the board that it was imperative that they should make up their minds as to whether they would have viaduct or bridges before work on the new station could be started.

The board decided to widely advertise the advantages that will accrue to the city from the spending of \$750,000 on the extension of water mains and a new engine. Ratepayers will vote on this bylaw on Sept. 14.

Controller Hubbard gave notice that he will move that the board seek power from the legislature to issue \$50,000 in debentures for the purpose of erecting a new wing to the hospital for the blind, where city patients can be sent.

The medical health officer will report on the number of city patients now in the hospital.

The board decided not to send Governor Chambers to the Prisons Congress at Chicago.

The board decided to exercise control over the use of advertising billboards, so as to prevent the beauty spots of the city being disfigured.

The parks and exhibition committee was waiting on by a deputation of residents on College and Bloor-streets, in the vicinity of Crawford-street, yesterday morning, who asked that seven acres of the Bickford ravine, running from Bloor to Crawford-street, be kept for a park.

The park commissioner opposed the removal of the fountain presented to the city by the late Mayor Angus Morrison from opposite the ferry sheds, on Lake-street, to Riverdale Park.

A new athletic field opposite Island Park, formed by reclaiming forty acres of marsh, is now ready.

**Strike Ending.**  
It is likely that the trouble between the G.T.R. and the machinists who went on strike several weeks ago will be satisfactorily adjusted in a few days. **ENTITLED TO PARTICULARS.**  
One ounce Fluid Extract Dandelion.  
One ounce Compound Salutarina.  
Four ounces Compound Syrup Sarsaparilla.

Mix, and take a teaspoonful after meals and at bedtime, drinking plenty of water.

The above prescription has been found invaluable in the treatment of kidney, bladder and urinary troubles, such as rheumatism, sciatica, lame back and lumbago, and we feel that the public are entitled to particular concerning it.

A prominent physician states that the excellent results that have been obtained from the use of the mixture are due to its direct action upon the kidneys, assisting them in their work of filtering out of the blood waste matter and acids from the blood and expelling same in the urine, and at the same time restoring the kidneys to a healthy condition.

He further states that anyone suffering from afflictions of this nature will find it to be beneficial, and suggests that it be given a trial.

Preparation of this medicine is made by J. C. Ayer & Co., Lowell, Mass.

**BOY'S HEROIC DEVOTION.**  
Sympathy Aroused by Touching Story of Harry Lewis.

LONDON, Sept. 5.—Widespread sympathy has been aroused by the touching story of Harry Lewis, the Tottenham boy who sustained his young brother Charles out of his own scanty earnings.

The boys were found sleeping out, and were taken in charge by a policeman. At the police court Harry said their mother had not allowed them to sleep at home for the last four years.

"When I get any work to do, I pay for my brother's lodging and give him food," he added. "When I cannot get any work we sleep out."

The elder boy was sent to Mr. Gould, a butcher of Edmonton Green, who has now given him permanent employment, while Charles was removed to a home for his future might be provided for.

Harry Lewis, who is just fifteen years old, told something of his sad and adventurous life. He is of stout build, he is much under the average size, and he has been in the army since his childhood to secure permanent employment.

"We were sleeping out for the second time. We had walked about most of the day, and we were weary. I had earned of food, and I was hungry."

"I climbed over a fence, and lay down. The night was bitterly cold, and I drew my younger brother close to me for warmth."

"Poor little fellow! he could not rough it as I can. We had walked about for hours, and I had spent the money I had earned on food. I had some bananas and other fruit, but my brother had nothing else all day."

"But I don't mind," Harry declared, "I can work for both. I wish he was with me now. He will be, I know. No thing can part us for long."

The brother was taken into a home, he continued, "He is such a little fellow that people would take advantage of him."

"We have always managed to maintain ourselves. If one has gone short so has the other. I gave my brother half of what I earned, and I am prepared to do it again."

The younger boy refuses to enter a home, and the authorities are in a quandary regarding him.

**AGRICULTURAL FACTS AND FEATURES OF 1907**

Our good roads laws are failures. It is baby legislation. Massachusetts pays three-fourths of the cost out of the state, and taxes her railways \$1400 a mile.—J. F. Beam, Welland.

It was the development of our agricultural resources that made the United States great. We want all Canada's farm products free.—H. M. Whitney, Boston.

The Milk Producers' strike was the result of a squeeze from a trust in Toronto, who wanted to down the farmer. We were right.—L. E. Annis, Scarborough.

The Grange has existed for a long time, and has done a great good to our farmers, but it has not been as strenuous in fighting for political reforms as it, perhaps, might have been. But its good organization is one reason for the Farmers' Association joining it.—E. C. Drury, Crown Hill.

I was born and lived on the farm until I was 20 years of age. I believe it is the vigor, manliness and all-round usefulness of the Canadian farmer's son that enable him to cope with the world.—Hon. Adam Beck.

Thirty years ago the Grange was a great power. Ten years ago, discouraged by the turn of events, it ceased aggression. Recently there are signs of life, and the Grange will be heard from again.—Capt. W. L. Smith.

I believe the advent of electric power on the farms of Ontario to be one of the greatest boons to our farmers of the province that can possibly come. The way farms are run by electricity in France, Germany and Switzerland would make us seem slow.—Hon. Adam Beck.

Let our country fair grounds be opened up to the public between fairs, and let a better citizenship arise from the free use of these grounds for all kinds of demonstrations and meetings.—President Creelman, Guelph.
