

Although sixty-five years of age, she told me he attributed the ivory-like and elastic whiteness of her skin to the occasional use of the Syrup. The coarsest skin can be made soft and beautiful by the use of the purifying Seigel's Syrup, or Shaker Extract of Roots. Rashes, festers, flesh worms, pimples, liver spots, blackheads, and all unhealthy appearances of the skin must yield to this great cleanser and brightener of the skin; for if the blood be pure the skin will be pure.

It is no Wonder I Speak.

Plymouth, Carroll Co., Ind., May 12, 1885.

DEAR SIR:—It is with great pleasure that I testify to the meritorious powers of your medicine. I have suffered with Skin Diseases, Hives, etc., and my body was a mass of blotches and pimples, causing severe irritation. I have tried medicines and doctors, and was in the trouble was in my blood and could hardly be eradicated. Six doses of your medicine improved me wonderfully, and one bottle entirely cured me. It is, therefore, no wonder that I speak in the highest terms of your medicine.

Yours very truly,
ELI WAGNER.

Purifies the Blood.

Northport, Ont., Jan. 7, 1886.

Gentlemen: Your Curative Syrup gives good satisfaction. It is an excellent blood purifier and sells well.

Yours very truly,
DOELAND, FOX & SON.

Joel, Ont., December 3, 1884.

J. WHITE & Co.

Dear Sirs: Enclosed please find \$10.80 Post Office order. I am trying to get the medicine as good a circulation as possible, as I think it is good. I am using it myself and have given some away, and I have good account of it. I have now only four bottles on hand and at writing, so you had better send me some four dozen Seigel's Syrup, two dozen Pills and one dozen ointment.

Yours truly,
R. M. STERLING.

Treated for the Wrong Complaint.

It is at all times hard to lose one whom we hold dear, but it is terribly so when we have the consciousness that but for mistaken treatment the loved one might have been with us still. In some cases the fact that the sufferer is treated for the wrong complaint is known in sufficient time to admit of the patient being saved, and the following is a case in point:

A little more than two years ago a beautiful young lady in New York was given up to die of Consumption. Her fond parents

took her to Paris as a last resort, hoping to find some skillful physician there capable of arresting the rapid strides of the supposed dreadful disease. In this their hopes were blighted, but fortunately, away in that distant foreign city they met with a description of a new method of treating Dyspepsia, which emanated from the Mount Lebanon Shakers of the State of New York. The thought struck the parents of this helpless young girl that perhaps their daughter was afflicted with Indigestion or Dyspepsia, and not Consumption; and if so, there might be a chance for her recovery.

Some of the Seigel's Syrup, or Shaker Extract of Roots, made especially for the cure of Dyspepsia, was obtained and administered to the patient, and the result was marvelous. To-day their daughter lives in the enjoyment of good health.

The fact was, the patient had been treated for the wrong complaint, and when she was treated for Dyspepsia (her real trouble), all the alarming symptoms of consumption vanished. This is not an isolated case. The country is full of suffering thousands that are being treated for Liver Complaint, Malaria, Kidney Disease, Lung Disorders, etc., etc., when the fact is they are afflicted with Indigestion in some of its varied forms, and all of such sufferers would obtain relief if they were properly treated for Dyspepsia.

Doctors Make a Mistake.

Crofton, Christian Co., Ky., January 5, 1882.

Mr. A. J. WHITE, 54 Warren St. New York.

Dear Sir:—My daughter, Sarah F. Walker, last Jan. was confined to her bed, and had been for twelve months; was under treatment of three eminent physicians, who said she had Consumption and Heart Disease. The doctors and all that saw her said she was bound to die. But I persuaded her to take your Seigel's Syrup, or Shaker Extract of Roots, and after having used two and a half 60 cent bottles, she was restored to perfect health, and said she felt better than she had for five years. My daughter is now living and enjoying good health, but had it not been for your medicine she would have been now dead.

Yours etc.,
Rev. M. Melton.
Any one doubting this can write to Sarah F. Walker, Crofton, Ky.

N.B.—If you think this worth printing, please do so; if not give it to the waste basket.
