Ottawa Businessmen Claim

Ottawa, Dec. 14.—Because freight rates have gone up and express rates are likely to do so, as a result of the hearing just concluded, representations are being made that the parcel postage ought likewise to be increased. This view is being put forward particularly by retail merchants, who claim that the mail order houses are not only cutting attentions.

DISARMAMENT ISSUE **UNDER CONSIDERATION**

Geneva. Dec. 14.-Consideration of the disarmament program of the League of Nations, as settled upon by commit-tee began in the assembly of the league of Nations, as settled upon by committee, began in the assembly of the league
today. It was expected the project
would be accepted without modification,
but, like the plan for an international
court, which was discussed yesterday,
it was expected to furnish occasion for
another series of addresses. The principal feature of the program is an appeal to the powers to agree not to increase applications for armaments during the next two years. From this beginning it is hoped to develop a gradual
reduction, finally reaching a point where
general limitation, based upon previous
applications, may begin. Other important matters on today's agenda were
reports on the "white slave" trade and
the opium traffic, which were to be
taken up following the debate on disarmament.

Two sessions of the assmbly will be Two sessions of the assmbly will be held daily, beginning today and ending on Friday this being adopted for the purpose of finishing the meeting of the assembly before Saturday. It is realized, however, that if any one subject brings in a long debate, the meeting will last until Saturday, and most of the delegates, counting on a full week's work, have reserved berths on the train leaving for Paris on Saturday night.

Mail Order Houses Hurting Their Trade.

Ottawa, Dec. 14.—Because freight rates have gone up and express rates are likely to do so, as a result of the hearing just concluded, representations are being made that the parcel postage ought likewise to be increased. This view is being put forward particularly by retail merchants, who claim that the mail order houses are not only cutting extensively into local trade, but also that they are getting a service below cost. The volume of parcel post business is increasing very matertally and the doubling of the registration charge has been followed by an increase rather than a decrease in parcels sent with that security.

New York, Dec. 14.—A woman's torso was found yesterday in New York Bay off Staten Island. The police found no marks on the torso to ald in identification. They expressed belief that it had been in the water a long time. Investigators said the woman was murdered, as the trunk bore marks of having been cut by a sharp instrument. They declared it was impossible for arms, legs and head all to have been slashed off by the propeller of some harbor craft.

Polic records showed no report of a woman missing from Staten Island within a week. The authorities are working on the theory that she may have been slain either in New York or along the Jersey shore, and her body tossed into the water.

Major-General Strickland, commander of military forces in Ireland is the head of the commission, and the taking of evidence began yesterday. The mayor of Cork and two Sinn Fein members of parliament have been called to explain allegations they have made in a dispatch sent to various foreign ambassadors here relative to outrages which they declare to have been perpetuated in Cork during the past week.

Announcement of the commission's finding was awaited with keen interest by the people of London today, as the question of who was responsible for the fires in Cork has assumed great importance since the conflagration. In the absence of clear evidence, rival elements have been doing their utmost to fix the blame on the auxiliary police or the Irish extremists, respectively.

Truce Prospects Blasted.

Sir Hamar Greenwood, chief secretary of Ireland, speaking in the House of Commonse last night asserted that the auxiliary police did not start the fires and pointed out they were not equipped with incendiary bombs, which, news dispatches assert, were used to spread flames in Cork.

Prospects of a truce in Ireland appear to have been blasted by the most recent events in that island declared Sir Hamar, so far as the representatives of the Irish are concerned. Newspapers generally declare the investigation in Cork should establish the guilt of those who set the fires and they demand that punishment be meted out to those responsible for the outrage.
