ALL STAND TOGETHER TO PROTECT BUSINESS

Notable Speech By Lord Charles Beresford at National Club—Unity of Empire Theme of Speakers.

Lord Charles Beresford showed a new phase of his thought about imperial defence at the National Club last night in a speech that was warmly received to a singular degree by the overflowing enthusiasm of the occasion.

Several incidents occurred to contribute to this. J. A. Macdonald struck a high note in a speech fervid with exalted feeling. Ruthven Macdonald, in an exceedingly happy selection, evidently touched the heart of the speaker, as he moved the rest of the company by his song; and the extraordinary display of enthusiasm, such as no other visitor from Britain has ever elicited, created an atmosphere in which Lord Charles felt altogether at home.

Telegrams were read from Lord Strathcona and George H. Gooderham, expressing their inability to attend. At the guest table, besides Mr. Irving and Lord Charles, were: Hon. W. J. Hanna, Mayor Oliver, Canon Cody, J. A. Macdonald, W. K. George, M. L. A. J. S. Williams, L.L.D., W. K. George, Wm. Stone, Senator Jaffray, Hugh Blain, Frank Arnold, K.C., Senator Cox, Col. Denison, W. P. Grundy, Commodore C. G. Mariart, George H. Lee, Hon. Dudley Carlton, Hon. Thomas Crawford, Capt. Melville, Capt. G. Jeffrey, Edmund Bristol, M.P.

At the guest table, along the front of the gallery, were displayed the signal flags, constituting the historical message, "Well done, Condo."

Floral decorations were very elaborate.

FIFTY THOUSAND ATTEND ON MANUFACTURERS' DAY

Exhibition Grounds Wear Second Week Aspect—Accident at Kandahar Spectacle.

Manufacturers' Day gave an exhibition second week aspect to the grounds, which by noon were a decidedly animated appearance while as the afternoon progressed the throngs continued to pour in until it became apparent that all former records for the day were passed.

It was a satisfactory day for everybody; for the public because everything was in fine working order as it ought to be on a special industrial occasion, with weather that left little to be desired; for the management, because the good opinion of that same public is more sought after even than the revenue therefrom; and for the restaurateurs and vendors in general, who chiefly look to the revenue end.

The only ones whose complacence was not complete were the dispensers of cooling drinks, who were hoping for a sharp rise in temperature.

Estimates of the attendance place it at about 50,000 to 60,000. The grand stand attendance at night was very large, as shown by a filled stand and a gathering of several thousands on the lawn, about 20,000 people enjoying the entertainment.

HIT BY ROCKET

The first accident to occur to the army of men who participate in the Kandahar spectacle here, Peter Curtis, of 57 Brant-street, for his victim. Curtis, who belongs to the Royal Grenadiers and the Toronto Naval Brigade, who figure in the clash of arms, had come scatheless thru the battle and was watching the fire-works when an ill-directed rocket, shooting along a few inches above the ground, struck him in the instep. So painful was it, that the stick penetrated his boot and inflicted a deep and painful wound. He lay in the ambulance to the operations of the ambulance to the operations of the emergency tent, where the injury was dressed. There is some danger of inflammation, which may give the accident a serious phase, the doctor says.

ATTORNEY-GENERAL WILL ADVISE

The public works department were engaged all day in gathering together all insurance policies and papers relating to the damage and forwarding them to the attorney-general. While the adjustments will necessarily go thru the department of public works, Hon. J. J. Poy will advise as to the legal steps to be pursued.

The actual amount of insurance coverage was in force to \$735,000. It seems pretty well established that the delay, if any, was caused by the employees in the buildings, not by the fire. Apparently all their heads for awhile, and never for a moment thought of the fire alarm system which had been installed. What is perhaps the worst feature of the whole unfortunate affair is that the auxiliary pump in the engine room, which is supposed to supply water to the hydrants in the building in case of fire, was not connected with the mains, as a result of the excavating for the new annex.

DUNLAPS AND HEATH'S FALL HATS

All the Advance Fall Styles Are In That Shakespearean quotation, "The apparel oft proclaims the man," no more fitting use than when applied to hats for men. A hat can make or mar a man's whole appearance. It is a wise man who accepts a style with a record. No hats made have the record for quality and style possessed by those of Henry Heath of London, England, and Dunlap of New York. Dineen is sole Canadian agent for these two great makers. To-day advance styles for fall and winter are on sale at the big store, 140 Yonge-street, Dunlap Derby Hats, \$5. Silk Hats \$10. Dineen's remain open until ten o'clock Saturday night.

CROWN ATTORNEY'S DENIAL

PETERBORO, Sept. 2.—(Special.)—Crown Attorney R. E. Wood has made an emphatic denial of a statement which appeared in a Toronto paper to the effect that there would be no prosecution in the Bolland case. Mr. Wood says he never said anything of the kind, and characterizes the "interview" published, as imaginary on the part of the writer.

CLEARING RUNS COL. WILLIAMS STEPS WAY UP

Ontario Government Will Take Steps To Discover Origin of Fire—Telegrams of Sympathy Received.

Although the ruins of Wednesday's disastrous fire in the Queen's Park were still smouldering, a large gang of men got to work early yesterday morning removing the little that remains of the library. For the most part the collection of law reports were only damaged by water and smoke. The books did not reach that part of the building. The calf bindings are saturated and the edges of some of the books are scorched, and the water has been sent to the bindery. The workmen were also busy digging into the debris of the main reading room. It is hoped that the ashes of the roof will take steps to discover the origin, as well as conduct a thorough investigation into the whole affair. In this connection it is noted that a tin-smith's charcoal brazier was found yesterday morning half buried in ashes and burnt timbers, in the annex immediately to the entrance to the library, and also an unknown workman tried to take it out of the building. It was secured by Provincial Inspector Greer, and had an evidence. Two soldering irons were inserted in the brazier when it was found.

LORD CHARLES BERESFORD: I don't care a fig about the susceptibilities of other nations. If you go messing about their affairs you lose their respect and their fear. If you stand up in the ring with a man you don't say you are not going to hurt his susceptibilities. If a nation builds four warships you should build eight.

SIR JAMES WHITNEY: Let us, as Canadians, as our acknowledgment of the new imperial conditions, register a vow to keep those conditions and everything relating to and arising out of them forever free from the corroding influences of local party politics.

J. A. MACDONALD: As Canada is an integral part of the empire she must be a positive part. It must be for the necessity from within, and not by compulsion from without, that Canadians should take this position.

Those Who Know Him Best Are Quite Ready to Accept His Statements as the Truth.

For sale in Annex, six good rooms, extensively decorated, cross hall, two bay windows, wide veranda, led 175 feet deep, fruit trees, vines, shrubbery. Terms moderate. Price \$2100. H. H. WILLIAMS & CO., 26 Victoria Street, Toronto.

OTTAWA, Sept. 2.—(Special.)—Sir John Hanbury Williams, military secretary to his excellency, Earl Grey, has accepted the appointment of Brigadier General in charge of the administration, Scottish command.

The appointment to this important post in the imperial army will necessitate his early departure from Canada, a matter of regret to many friends here who have come through the Dominion.

He came to Canada over four years ago with Earl Grey as plain Col. Hanbury Williams. For his services in connection with the tercentenary celebration at Quebec, he received the honor of knighthood.

Sir John Hanbury Williams, who belongs to a distinguished English family, joined the army in 1878, being attached to the 4th Light Infantry. In 1882 he took part in Lord Wolseley's Egyptian campaign at A.D.C. to Sir Hamley, in command of the second division of the 1st Battalion of the 4th Light Infantry. He was mentioned in despatches and received the medal with clasps. He was also mentioned in the case of John Shaw, M.L.A., who was appointed A.D.C. to Sir M. E. Brant Duff, governor of Madras, and subsequently served in Burma. From 1892-97 he was adjutant of the 3rd Oxford Light Infantry regiment. Then came his appointment as military secretary to Lord Milner in South Africa. For these services he was decorated.

Those Who Know Him Best Are Quite Ready to Accept His Statements as the Truth.

What a cheerless spot to have aroused the ambition of man for so many ages.

An endless field of purple snows. No life. No land. No spot to relieve the monotony of frost. We were the only pulsating creatures in a dead world of ice.—Dr. Cook.

POUGHKEEPSIE, N.Y., Sept. 2.—Dillon Wallace, the author and explorer, whose companion Leonidas Hubbard, became lost and starved to death while exploring Labrador, said this afternoon that he had implicit faith in Dr. Cook's wonderful feat. Mr. Wallace has almost completed plans for an expedition to go to the relief of Dr. Cook. In his statement he said: "I knew Dr. Cook well, as he was one of the closest friends of my youth. You may trust in his veracity. I have known him intimately since he was born. When a boy he exhibited signs of a scientific bent. When he could, he would read of explorers, and study their methods. When I left on my last expedition on May 30, 1887, Dr. Cook led a delegation of the Arctic Club, which went to the ship to see us off."

ALD. BREDIN AND M'GHIE WANT TO BE CONTROLLERS

Shake-Up in City Council is Promised if Present Aspirations Hold Good to the End.

It's four months until the fateful first of January, but already the pot of civic politics is boiling busily.

Controllers Hocken and Geary are definitely out for majority honors, with equal definiteness, Ald. Bredin and Ald. McEneaney have stated to friends within the past few days that they offer themselves for the board of control. The letter has already made one or two false starts after the high honors, but will stay to a finish this time.

Ald. Bredin is encouraged by the vote which placed him at the head of the poll in the third ward this year.

Ex-Mayor Urquhart, while he has not made a clear-cut announcement, is understood to be in the running. It is rumored that an office building will be erected of 27 feet on Queen-street, between the lot of Yonge and a depth of 27 feet on the lot of the Robert Stewart estate.

DUCK PUNT SUBMERGED HUNTERS NEARLY DROWN

Two Whitby Sportsmen Have a Close Call in Lake Scugog in Early Morning Hours.

Dr. Proctor and Messrs. Jack Williams, P. Milne and George Thompson, all of Whitby, went out to Pine Point to have a few days duck shooting from Col. A. G. Henderson's shooting lodge. Yesterday morning they started out about 2.30 to locate themselves in the morning shoot. Dr. Proctor and Williams were the last to leave. They had a small duck punt which is really intended for but one, but as the distance was short, no danger was apprehended.

ANOTHER OFFICE BUILDING

American Concern Secures Option on 152 and 154 Yonge—\$4600 Per Foot.

An American concern is reported to have obtained an option on the property at 152 and 154 Yonge-street, to purchase for \$125,000. The price is equal to about \$4600 a foot, although it is assessed at \$1550 a foot. No announcement is at present forthcoming as to the purposes to which the property will be put, but it is rumored that an office building will be erected thereon.

GIRL'S CLOTHES ABLAZE FROM KITCHEN STOVE

Flossie Robins Severely Burned, But Mother Comes to Rescue

Fourteen-year-old Flossie Robins, daughter of Fred Robins, 124 Macpherson-avenue, had a narrow escape from death about 7 o'clock last night when her clothing caught from some charcoal with which she was trying to light the kitchen fire. Her mother, who was in the room, saw the fire and rushed to the rescue. Flossie's mother, Mrs. Robins, was in the room, saw the fire and rushed to the rescue. Flossie's mother, Mrs. Robins, was in the room, saw the fire and rushed to the rescue.

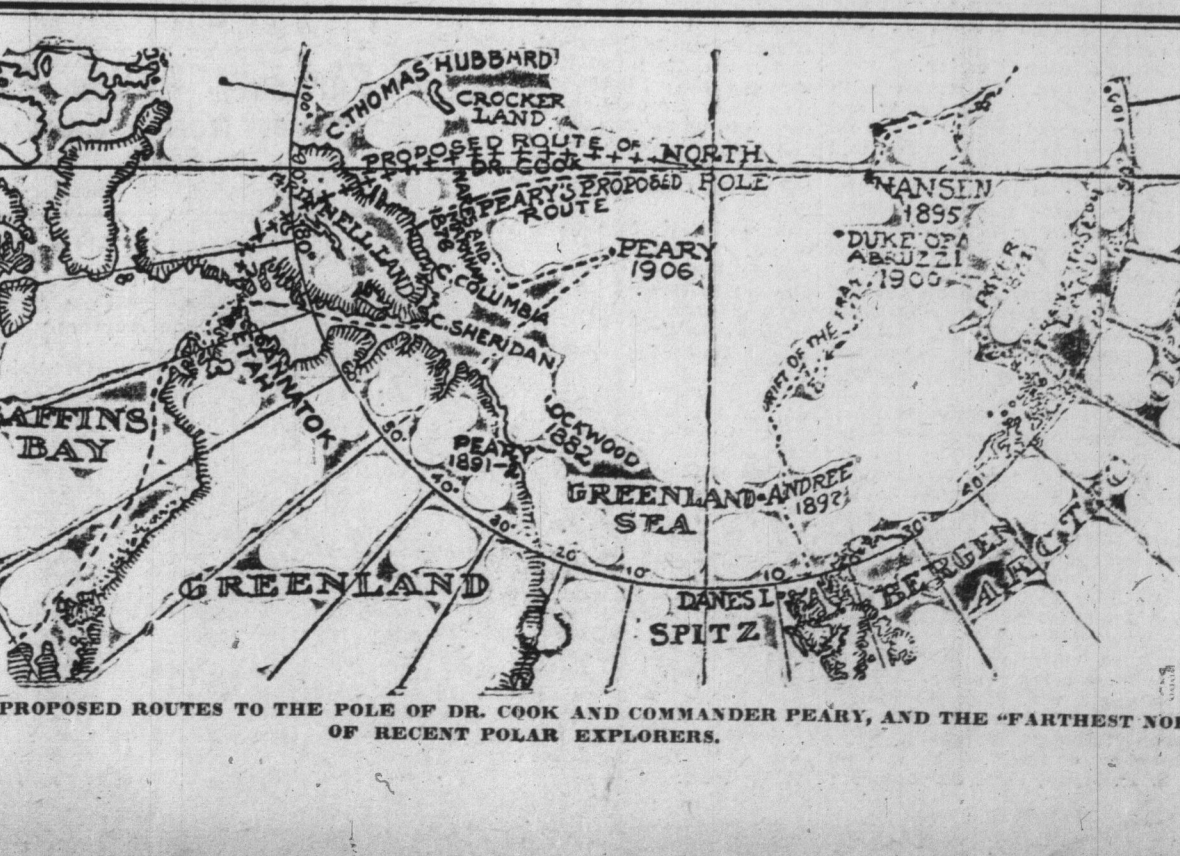

PATRONAGE A CIVIC CURSE

Mayor Payette of Montreal Scores the Too Constant Alderman.

MONTREAL, Sept. 2.—(Special.)—Mayor Payette at the meeting to-day of the royal commission satirized a certain type of aldermen to be met in every city. His words were: "Some of the aldermen almost have their valises at the city hall and live there. I cannot say how it is that an alderman who has no private fortune can spend all his time at the city hall, and still make his living, but I know what I think. It is a question of patronage. There is patronage all over the city hall. It permeates everywhere. It even gets into the empty rooms. Patronage seems to be part of the administration."

PORT ARTHUR RECORDS

PORT ARTHUR, Sept. 2.—(Special.)—Arrests last month totalled 258, a record, and fines were \$1023. Building permits for July and August aggregated in value \$296,000.

THE PROPOSED ROUTES TO THE POLE OF DR. COOK AND COMMANDER PEARY, AND THE "FARTHEST NORTH" OF RECENT POLAR EXPLORERS.
