**Forest and Fisheries
Industries**

Require strong and vigorous men, hardened against all fatigue or weather.

In camps or on board fishing schooners, quantities of strong liquors, made from industrial alcohols, are consumed, shattering all strength instead of rebuilding the system.

All hard-workers, laborers, farmers, bushmen or fishermen should back up their strength and sustain their energy by taking only pure liquid like

"RED CROSS GIN"
made from the best ingredients: Juniper berries, malted barley and other choice Canadian grains, through distillation, and matured and bottled under the supervision of the Government—the only system which insures all guarantees to the consumer.

"RED CROSS GIN" is strong and mellow; it sustains and rebuilds the constitution; it is hygienic and it is prescribed daily as a tonic, an appetizer, a digestive. It is a source of energy handy for the workmen or the business men.
