LANCASTER HIGHWAYS BILL PASSED BY CLOSE VOTE; MAY BE FURTHER DISCUSSED

(Special to Times)
Fredericton, April 12.—The Lancaster highways bill, authorizing the issue of bonds for \$100,000 for the construction of permanent highways in that parish, passed the municipalities committee this morning by the close vote of six to five. Some members did not vote. The bill had been discussed earlier in the morning and allowed to stand, but before adjournment it was taken up again and some further discussion followed. The doubt regarding the bill arose from a feeling on the part of some members that the way in which the money was to be expended had not been defined sufficiently and also resulted from strong opposition presented by many property owners in the district. Under the circumstances it is possible that the bill will be discussed further when it comes before the committee of the whole.

The bill amending the tax rate of motion picture exchanges in St. John to meet the views of the exchanges, was recommended.

The bill to extend the police district in Lancaster stands over until further word can be received from the municipal authorities.

Newfoundland Lifts Ban
Ottawa, April 12.—All restrictions have been removed in Newfoundland from the importation of sugar and other foodstuffs, except flour, which is still under license. Export permits will be granted freely to Canadian shippers.

DISTRIBUTING THE SEIZED ENEMY SHIPS

Paris, April 12.—(By the Associated Press)—The supreme economic council has announced an agreement providing that enemy tonnage, both that acquired before and since the armistice, would be divided among those governments, according to their ability to bring the ships into speedy use, and in the case of passenger ships, according to their relative needs. This arrangement will not prejudice the ultimate disposition of the ships under the terms of the treaty of peace.

New York, April 12.—Steads, oils and food shares led the higher range of prices at the opening of today's stock market, gaining one to one and a half points. Other issues, excepting rails, which were apathetic, advanced more moderately.

HAD HACKING COUGH COULDN'T SLEEP NIGHTS

Hacking coughs are very wearing on the system. The constant coughing disturbs the rest, and keeps the lungs and bronchial tubes in an irritated and inflamed condition.

Don't neglect the hacking cough. You can get rid of it with a few doses of Dr. Wood's Norway Pine Syrup. The genuine is put up in a yellow wrapper, three blue lines from the trade mark, price 25¢ and 50¢ a bottle. Put up only by The T. B. Williams Co., Limited, Toronto, Ont.

RIVER CONDITIONS UNCHANGED
Things are still very quiet at Indian town, and along the river. The first freight and passenger boats are not expected to start before the middle or latter part of next week. There is practically no ice running and freshet tides have not yet appeared. The late heavy rain, it is thought, will raise the stream somewhat before tomorrow night and have the effect of starting the high tides generally. A heavy freshet is not anticipated.

MEN IMPLICATED BY GIRL MOTOR BANDIT

Atlantic City, N. J., April 12.—Following the confession of Florence Duke, a twenty-year old girl motor bandit, five men implicated by her in the stealing of from 100 to 300 automobiles were arraigned in the criminal court here.

They are Martin Nathanson, George Nathanson and Jeremiah Nathanson, proprietors of a boardwalk garage, and Lewis Nathanson and Winfield Thomas, two of their employees. All declined to testify. The first three were held in \$10,000 bail each and the other two in \$2,000 each.

The district attorney said that tags found on information furnished by Miss Duke, who is now serving a sentence of twelve years in a Philadelphia prison, showed the whereabouts of the stolen cars, twenty-five of which have been recovered.

Clemency was offered Miss Duke at her trial if she would name her accomplices. This she spurned and the court imposed the extreme penalty.

MISS HILDEGARDE LISTER
The friends of Miss Hildegard D. Lister will be shocked to hear of her death which occurred this morning at 8:15. She was the eldest daughter of Mr. and Mrs. N. E. Lister, Prince street, West St. John. Miss Lister was an active member of the Junior Natural History Society, at one time being president of the organization and was one of the most popular young ladies in West St. John. Besides her parents she leaves two brothers, Cyril of Medicine Hat, Alberta, and Percy at home, and two sisters, Misses Mildred and Pauline at home. A large circle of friends extend their sympathy to the bereaved ones. The funeral will take place tomorrow afternoon at 3:15 from the house and 3:45 from St. Jude's church.

SPRING MEDICINE

Hood's Sarsaparilla is Needed Now As Never Before.
Because, although the war is over, its work, worry and excitement have undermined your reserve strength. Because the coughs, colds, grip and maybe severer illness, have broken down your power of resistance.

Because winter's work and close confinement have worn out your stomach and exhausted your blood. Can you afford the good long rest the doctor advises?

If not, take a course of the famous old medicine—the one that mother used to take—Hood's Sarsaparilla. It's the finest extract of nature's purifying, vitalizing and strength-making roots, herbs, barks and berries, such as physicians prescribe, prepared by skillful pharmacists, in condensed and economical form.

If you want the best spring medicine you'll surely get Hood's Sarsaparilla. Hood's Pills help the liver.

OUCH! CORNS! LIFT CORNS OFF

Doesn't hurt a bit to lift that sore, touchy corn off with fingers

Why wait? Your druggist sells a tiny bottle of Frezcor for a few cents, sufficient to free your feet of every hard corn, soft corn, or corn between the toes, and calluses, without surgery at all.

Drops of magic! Apply a little Frezcor to that bothersome corn, instantly that corn stops hurting, then you lift it off with the fingers. No pain at all! Try it!

IS THERE COAL SURPLUS?

New York, April 12.—Frank J. Hayes, president of the United Mine Workers of America, and Robert Harlan of the executive board, called for France yesterday on the steamer George Washington.

According to Wm. Green, secretary of the union, they were to urge upon the United States finding a market abroad for at least a quarter of the coal surplus of 100,000,000 tons which has accumulated here since the signing of the armistice. If a market can be found, it was said that the exportation would stimulate production in this country and offer employment once more for all miners.

It was also said that Hayes and Harlan would confer with British miners regarding the recently announced programme of the American union's policy committee in favor of a six-hour day and nationalization of the country's mines. A similar programme is being advocated by British miners.

TERMS WILL BE KNOWN IN A FEW WEEKS

Statement on Peace By Winston S. Churchill
German Resolution Adopted—League of Nations Commission Completes Consideration of Covenant

London, April 12.—(By the Associated Press)—Winston Spencer Churchill, secretary of state for war, speaking yesterday afternoon, said that in a few weeks or possibly less, the terms which the Allies had agreed to impose on the enemy would be known. He added that what Great Britain wanted was a peace that would not be a fleeting triumph, but a peace of solid structure, on a broad and lasting foundation.

SUMMER GERMAN IN NEXT WEEK.
Paris, April 12.—(Havas Agency)—La Journal says that the Council of Four expects to finish its examination of the boundary questions in dispute on next Friday and to summon the German delegates to Versailles in the course of next week.

German Position.
London, April 12.—A German government wireless message says that the national assembly at Weimar, at the conclusion of the first reading of the budget, accepted a resolution supported by all parties except the independents, demanding a peace treaty corresponding with President Wilson's fourteen points, and declaring that "peace of justice must not inflict upon us any change in territory in violation of that programme."

League of Nations.
Paris, April 12.—The league of nations council completed its consideration of the league covenant last night.

Paris, April 12.—(Havas Agency)—The French delegation on the league of nations commission voted for the adoption of the text of the covenant when the commission endorsed it last night, but made reservations as to two points, the organization and effective control of the manufacture of war material and the institution of a permanent military control.

The commission decided to submit the agreement to a plenary session of the peace conference soon.

With the single exception of an amendment specifically exempting the Monroe Doctrine from being affected by the covenant, no vital change was made by the league of nations commission in that document at the concluding meeting. Last night's discussion lasted four hours. No date was set for a plenary session of the peace conference to consider the covenant.

Paris, April 12.—The commission left, it did not include any section granting Japan's request for the recognition of racial equality, neither was a section introduced covering the request of an international military general staff. As it now stands the covenant contains twenty-six sections.

MAINE HAS WOMAN'S REFORMATORY
Augusta, April 12.—Despite the many perplexities and discouragements arising from the present day conditions, we have constantly held to our aim of making the women committed to our care well in body, mind and soul," say Clyde H. Smith of Skowhegan, Mrs. Effie M. Lawrence of Lubec, Rev. James Kealey of Waterville, Clifford E. McGlaflin of Portland and Mrs. Frances B. Dames of Dexter trustees of the Maine Reformatory for Women in their annual report which was filed with the governor and council Wednesday.

"We have hired a physician by the year whose business it has been to look after the health of the institution," says the report.

"We have not allowed a woman to leave the institution, even on parole, until everything possible has been done to put her into good physical condition. In addition to this we have sought to teach her the importance of caring for her health and every woman, whether or not she requires medical aid, has shown marked physical improvement as the result of good plain, wholesome food taken at regular intervals, plenty of sleep in a well ventilated room, and work in the house, laundry, garden and fields."

"A trained nurse in the institution has not only taught them to care for themselves, but has taught them valuable lessons in the care of the sick."

"In the afternoon, the institution resembles a well regulated boarding school where the women of all ages gather eagerly in the assembly room to receive instruction. All below the high school stage of development have shown marked improvement. Several have learned to read and write."

"We have recognized the virtue of being useful as an aid to moral reformation. An effort has been made to teach each of the women in the serving of food, in laundry work, in gardening, poultry-raising and dairying."

"A new and more wholesome manner of thought and life is induced by association with the good women who are employed to care for them, by the reading of good books, by music, and by a closer familiarity with nature and her teachings."

"The Catholic and Protestant churches of Skowhegan have been most kind and cordial in welcoming the women to their services and this bit of association with the good people of the outside world seems to be even more helpful than regular services held for the inmates would be."

"Under the parole system we have opportunity to test carefully the ability of the woman to again enter into community life. Often the change from the old environment that usually proves necessary seems to be just what is needed to complete the reformation begun in the institution."

Winnipeg, April 12.—Private advices reaching Winnipeg yesterday morning from Ottawa, says the Telegram, declare that the government has decided to recede the order-in-council granting exemption from military service and the free exercise of religious beliefs to non-combatants.

In-omnia Cured Without Drugs

Internal Bathing Relieves the Cause
If you do not sleep there is always some cause. Don't start dosing with drugs. Nerves can't consume them. Believe the cause and a good, sound sleep will be the result.

The system cannot be right if the Colon or large intestine is not kept clean and free from all waste matter. Bathe internally if you want perfect health.

Mr. F. C. Voigt, Rapid City, Mont., writes: "For several years I suffered from Indigestion, Nervous Debility, In-omnia and Constipation. Had no appetite, and doctors did not expect I would live throughout the winter. Your book interested me. I got a 'J. B. L. Cascade' and in a few days obtained remarkable results. I now sleep and enjoy my meals better than for years before. I regard the 'J. B. L. Cascade' as a God-send to me."

The 'J. B. L. Cascade' is a perfected appliance for Internal Bathing, invented by Dr. Chas. A. Tyrrell of New York, and has been the means of restoring thousands to perfect health. It is shown and explained by E. Clinton Brown, Druggist, cor. Union and Waterloo Sts., also S. W. Munroe, Dispensing Chemist, 607 Main St., St. John, who will be pleased to give you an interesting book called "The What, Why, Way of Internal Bathing" on request. Ask for it.
