A syndicate composed of several prominent men of the city have purchased all the lots available in Edward street, which runs from Alexandra street to Harrison, and they now own practically all the building lots in that street. It is their intention to make this street a nice residential locality and they have secured a contract for the first of these houses to be built by the city government. The contract for the first of these houses has already been let to Murray Long, of West End, and work will be commenced within a month.

The foundation work in connection with the new bridge across the falls is progressing rapidly. The work is being done by J. McVey & Son. It will probably be completed next October, when the Dominion Bridge Co. will begin their part of the contract.

MORNING LOCALS The organization of a new club, having for its object, the advancement of the commercial interests of the city, independent of the board of trade, is being discussed. A meeting will be held in next week for further consideration of the matter.
