

BIBLE CLASS.

The Bible Class continues its work with unabated interest, and it is to be hoped with increasing spiritual benefit to the young people of our congregation. Some 130 young men and women attend its ministrations. The subjects of study, selected for the term, are lessons from the lives of eminent scriptural characters, with an occasional doctrinal theme from the confession of faith. These, so far, have received most marked attention from every member of the class. The Pastor and other office bearers are highly gratified with the admirable order which, without any effort on their part, is maintained by the students. The increased efficiency in the praise part of the services is a special feature of attraction. During the year, along with the whole church building, the old Bible Class room—which for years had fallen into disuse—has been completely renovated. The ceilings and walls handsomely trescoed, the floor carpeted and seated with chairs, and the ventilation, as far as possible under the existing system of heating, improved. It is now one of the best furnished, most convenient and beautiful rooms in the church. The necessary expenses entailed for these improvements have, with commendable enterprise, been assumed by the class. This they have been enabled to do by specially liberal terms granted them by Mr. John Ferguson, to whose kindness they are further bound in gratitude by the handsome gift of a chair and desk for the use of the Pastor in his class work.

The aforementioned facts will explain why the class cannot for the past year, as formerly, apportion their contributions to the schemes of the church.

The office bearers of the Class, besides the Pastor, are—
 SECRETARY-TREASURER—Mr. Donald McDonald.
 LEADER OF MUSIC—Mr. Wm. Freeland.
 ORGANIST—Miss Emma Freeland.
