WILL INSPECT

C. DOUTRE LEAVING FOR THE WEST COAST

Visit to Whaling Station at Kyuquot in View of Station

There.

(From Monday's Daily.)

Saturday the steamer Quadra with Cecil Doutre, superintendent of wireless sta-Captain Gaudin, who is in charge of the department, on board left port on her way up the West Coast of Vancouver Island, Mr. Doutre is going to Pachena Point and Estevan Point to inspect the sites where the wireless stations of the

Dominion government will be established.

The steamer Maude recently, with a cargo of lumber and workmen, left for the West Coast, and shortly after her arrival at Esteyan and Pachena the construction work will commence. It is likely that on the present trip of the Quadra she will make a call at the new whaling station at Kyuquot Sound. Some time ago Captain Balcom, the manager of the Pa-Captain Balcom, the manager of the Pacific Whaling Company, made representations to Mr. Dolutre, asking him would it be possible for the government to establish a station at Narrow Cut Inlet. As a result of these representations Mr. Poutre will pay a visit to Kyuquot and will make his report to the Dominion government on his return to Ottawa. The Pacific Whaling Company is forwarding an application to Ottawa for the establishment of a station at Kyuquot.

In putting forward its plea for a wireless station at Kyuquot the whaling com-

In putting forward its plea for a wireless station at Kyuquot the whaling company points out that the steam whaler
St. Lawrence would immediately on receipt of a wireless message be able to go
to the succor of any vessel which was in
distress. It is pointed out that already
the steam whaler Orion has salved two
vessels when in distress off the West
Coast. These were the barques St. James
and the Inveramsay, which were drifting
perilously near the shore when they were
towed to see by the Orion. It is contend-

the Dominion government.

When Mr. Doutre was asked if the present visit of Mr. Marconi to Canada had anything to do with the wireless war which originated with the decision of the which originated with the which originated with the which originated with the decision of the which originated with the which origi government to establish Shoemaker stations on the Pacific Coast, he said that he thought there was no connection between the two events. "I see," he stated, "that Mr. Marconi has said that he will be able to establish trans-Atlantic communication between the stations at Glace Bay and the station in the Old Country at Poldhu Bay, or the new station at Clifton. It is impossible for me to say if his efforts will be crowned with success. The Marconi company has never taken the public into its confidence with respect to its operations from Glace Bay. Although I do not know how far the Marconi company has arrived towards its goal, it is only a question of time before there is trans-Atlantic communication."

Questioned as to the statement made

ver, Mr. Doutre said, "that, having regard to the present development of wireless telegraphy, there was nothing to indicate that such a feat was possible."

Work has already commenced in connection with the Victoria wireless station, to be situated at Shotbolt's Hill. The civic authorities are now engaged in laying water pipes from the terminus of the system to the road leading to the property. The work of carrying the water from that road to the actual site where the wireless station will be situated will be performed by the government.

The wireless equipment for all the stations on the Pacific Coast is now on its wey from the East and is expected to arrive any day. This week the construction work will have commenced at Cape the corner at that point the corner at that point the virence of suicide," was returned by the jury after one minute's deliberation at the inquest held this morning at the turn the runaway car jumped the frack and plunged into a small tog each of Jane Lawley, whose dead body was found upon the beach at Clover point last Friday. From the evider ce to spend and bruised by flying glass and falling times.

An immense crowd immediately gather of the proprietor, Ralph D. Hoff, wife and child, customers, were painfully cut and bruised by flying glass and falling times.

An immense crowd immediately gather of the proprietor and a fire alarm and riot call were turned in. The police reserves Lazo, Pachena Point, Estevan and Shot-tiolt's Hill, and shortly afterwards at Point Gray. By the end of September the stations will be in operation.

CROPS IN THE WEST.
