MAYOR'S HOME FIRED BY BOMB

THREE WOMEN HAVE NARROW ESCAPES

Absent at Time of Outrage.

Bellefontain, Ohio, June 15.-Hurling a bomb through the window of the home of Mayor Nisen to-day, an unknown man set fire to the house and few necessities required for the jour- and police. The mayor was away from home at the time of the outrage, his two sisters and a niece being the only cupants of the house.

The bomb was of peculiar construction ion, being evidently only intended to start a fire. The house was a mass o flames within a few seconds after the bomb was thrown, and the women's escape was cut off by the fire. They were nearly overcome by heat and the excitement when a squad of firemen and police forced their way through the wall of flame and carried then into the

open air. The prompt arrival of the fire department prevented the total destruc-tion of the house, which was damaged to the extent of more than \$1,000. Nisen was elected mayor on the antisaloon platform, and has made many

enemies since he took office.

Detectives have been detailed to the case and are making efforts to learn the identity of the bomb thrower. No arrest has been made, but it is known that several men are under suspicion, and may be taken into custody tonight.
