Nanaimo Exhibition

Sixth Annual Show in the Coal City Proves a Snccess.

The Prize List-Marked Improve ment Noted in Many Lines.

The Nanaimo District Agricultural and Horticultural Society held their sixth annual exhibition on Saturday in the Coal City. The formal opening took place on Friday evening, and throughout the evening of that day and of Saturday the pavilion was crowded with throngs

Acting Mayor Mason officiated at the opening in the absence of Mayor Bate. Deputy Minister of Agriculture J. R. Anderson being among those who were present. S. M. Robins, of the New Vanouver Coal Co., and Ald. Hickman and Webb were also in attendance. Acting Mayor Mason made a brief and appropriate address, and formally de-

clared the exhibition open. The exhibits are more numerous and decidedly better in point of quality than at any previous exhibition, the good work accomplished by the society in the encouragement of exhibitors having borne excellent fruit. Fruits and vegetables, the products of the garden and of the farm were shown in abundance, and the stock exhibits were above the average. Every possible attention had been paid to the convenience and entertainment of the crowds of strangers, and the selec-

appreciated. Following is the prize list: APPLES.

tions played by the orchestra were much

An excursion train and a fast freight collided on the Denver and Rio Grande railway at Reno siding, Colo., on Saturday. Six passengers were killed and

five injured. While men were making preparations to shoot an oil well on the Ridner farm, near Wellsville, Ohio, the well overflowed and the oil ignited from fire under the boiler, causing a terrible explosion. others injured.

Cottage City

Brings News That a Relief Expedition Has Been Sent to the Mackenzie.

Gold in the Porcupine and Upper Klondike Districts.

Selkirk- A Mammoth's

Steamer Cottage City reached port soon after midnight on Sunday morning from Alaskan points, and after a stay of about an hour left for the Sound. She had a large number of passengers, including many from Dawson and Atlin. She brought down a big shipment of concentrates and \$300,000 in gold. News was brought by her from Sitka that the U.S. revenue cutter Bear has arrived at the Alaskan capital with 15 prisoners on board from St. Michael and Cape Nome. News was brought by the arrivals from Dawson that the many tales of starvation, suffering and death which have reached Dawson from the so-called Mackenzie river trail, together with the myriad of appeals for news of missing who arrived at Fort Selkirk with a ones received from anxious relatives 'large amount of coarse gold. He locatoutside, has touched the sympathies of Commandant Steele, of the Northwest Mounted Police, and he has dispatched a relief expedition over the trail, instructed to find and give relief to the sick and needy, make inquiries concern-

ing the missing ones, etc. The expedition, which is commanded by Corporal Skirving, left in a canoe man, of almost unerring judgment, that for the mouth of the Porcupine river, scores of people joined the stampede. which flows into the Yukon some hundred miles below Dawson, and will go got off a boat at Fort Selkirk on hearing up that stream to the portage to Bell and West Rat river, cross the mountains to the Peel river, then portage to the Mackenzie and follow that stream posit of ore somewhere on one of the to Fort McPherson, where their search

will be ended. The men are provisioned for six weeks after which they will have to pick up their provender, and it is likely they will be out several months, if not until next summer, as the journey is a long, hard and dangerous one.

Many are the tales of suffering that have come from the district to which the soldier-police are heading on their errand of mercy. It was but a few days before the expedition left that

A Poor Emaciated Wreck crawled into the Klondike capital. He gave his name as C. Edwardson, an Australian, and told a story of awful suffering on the Mackenzie. He lost his outfit through the overturning of his his rescuers nursed him until he had sufficiently recovered to be able to reso weak from hunger when he reached Dawson that he could scarcely stand. Passengers who arrived by the Cot-

tage City bring more news of The "Anger of Aukow." earthquakes. At Yakutat on Sept. 3 the and nothing to indicate the manner in houses began to rock and shake violently and the residents rushed out into the streets. Across from the village the water was a mass of seething foam. During the week following there were the inhabitants were awakened by a shock which was so violent that the quake of the week before was insignificant in comparison. The houses creaked and groaned as though being shaken to pieces. Schooner Grystal anchored the bay, turned turtle and Kanak island has now gone completely out of sight. The trees cannot be seen. At Ocean Grove there are great furrows in the earth about four feet wide. Originally they must have been twenty feet in depth, but the sand banks had caved on them and partially filled them up. Some miners who have reached Juneau from the west of Yukata tell of the finding of marks of a number of gigantic waterspouts which bored great Graded Cow-John Leonard 1, H. D. Cal- holes into the sand and had carried the sand and earth inland, scattering it six inches deep over acres of ground. From every indication the force of the water spouts and tidal waves must have been irresistable and had the tidal waves tide many villages would undoubtedly

Capts. Anderson and Robertson have returned to Dawson from a ten weeks' prospecting tour in the upper Klondike, Porcupine and Stewart river countries. Their route lay up the south fork 20 miles, across country to the north fork, up that stream to its head, then over the divide to Porcupine. After prospecting there they turned south, passing around the headwaters of the Klondike and touching at McQuestion river in the Stewart country, thence back to the south fork of the Klondike and home. They prospected diligently on many fine creeks, but

Only Colors Were Found and they were on bedrock. They visited the camp of the Frenchmen on the south fork and of the Australians, where they washed many pans and personally prospected the creek, but found only colors. They are satisfied the stories of the finds are false. "Why," said Captain Anderson "if I had all the gold washed from a thousand pans during the ten weeks I was out, I wouldn't have a dollar's worth."

Owing to the fact that rimrock is exposed on the creeks, prospecting was comparatively easy. As a result of their research, Capt. Anderson is satisfied Two men were killed outright and three that there is no gold between Hunker and the Porcupine and the Rocky moun-

tains. He also searched diligently for quartz; but without success. It was noticeable, however, that the formation grew richer and more promising as they progressed toward Stewart river, and the captain says that if quartz is ever struck in that country it will be there. On the way home, Captain Anderson

traded his horse for passage to Dawson n a canoe; and at a point just below the canyon the canoe was overturned, spilling the three men into the water and nearly drowning them. Their guns, clothing, memoranda, maps and other things were lost in the river. George Lion's brewery plant and beer

at West Dawson have been seized by the police. Leonard, the aeronaut, who is making balloon ascensions at Dawson, had a narrow escape from drowning on Sept 1st. He fell in the Klondike river 100 yards from the shore, but was soon on the surface of the water and

brought ashore none the worse for his experience The O'Brien combination, who are building an electric tramway up Bonanza, also propose to operate a tramway

service at Dawson City. Robbers attempted to rob Nigger Jim Dougherty's saloon at Dawson on Augist 29th. They crawled in under the building and bored holes through the floor, after locating the position of the strong box in which was \$9,000. They enefrated the strong box, but as it is lined with sheet steel were unable to get inside.

J. C. Smith and Thomas Dunlap are battling before the gold commissioner at Dawson for the possession of a valuable claim-No. 37 on Gold Run. News is given of

A Stampede to Stewart from Fort Selkirk and vicinity. The discovery was learned through an Indian ed the find as about 40 miles from

there. As a result of his statement, Mr. Pitt, manager of the Harper store at Fort Selkirk, purchased licenses for a dozen Indian bucks and started for the diggings. This so impressed the people of Selkirk, who know Pitt to be a cautious Colonel Williams, a Dawson man, also the news and followed the crowd. It has been known for two years at Fort Selkirk that there is a rich de-

but it was never definitely located until last week. It was also learned that confidence in Several previous attempts in the same dithe south fork of the Big Salmon is re- rection have been made, but to the creviving. The engineer of the Eldorado, dit of the Japanese government, be it Dick Mayo, was in receipt of a letter a said, have always failed egregiously, and few days ago from a partner up there, it is confidently predicted, for this latest on the strength of which he has resigned his position with the intention of joining his friend. News is also given that miners are leaving the Seventy Mile district, the ton of the disastrous and signal placers there having not turned out ac-

There are many thousands of wise wo-men in this country who, when they found that they were suffer-ing from weak-ness or disease of their distinctly womanly organisms, promptly wrote to an emi nent and skillful physician, with a world-wide repu-tation, instead of trusting their cases to some ob scure physician with but limited practice and ex-

perience. The are many reasons why a wise woman foll lows this course. The chances are that an obscure physician of small practice will not diagnose troubles of this nature properly. If he does, he will insist on the obnoxious examinations and local treatment for which actions are supported to the control of the control nent from which every sensitive, modest woman shrinks.

The specialist referred to is Dr. R. V. Pierce, for thirty years chief consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y. Thirty years ago he discovered a wonderful medicine for diseases peculiar to women, that may be used effectively in the privacy of the home, and does away with all necessity for exam-inations and local treatment. This medicine is known as Dr. Pierce's Favor ion. It acts directly on the delicate and important range concerned in wife-hood and motherhood. It makes them strong, healthy and vigorous. It allays in-flammation, heals ulceration, soothes pain and tones and builds up the nerves. Taken during the period of prospective maternity, it banishes the usual discomforts and nakes baby's coming easy and almost pain-It insures the little new-comer's health and an ample supply of nourish Over ninety thousand wo testified to its marvelous merits. Medicine

dealers sell it. It is a druggist's business to give you, not tell you, what you want. Any ailing woman may write to Dr. R. V. Pierce, Buffalo, N. Y., and get free advice. By inclosing 31 one cent stamps in her letter, to cover cost of customs and mailing only, she may secure a paper-covered copy of the "People's Common Sense Medical Adviser." Cloth bound, 50 stamps.

News of China and Japan

Some Adventurers-Yacht and Suffering Credtors-Trouble at Amov.

Aguinaldo's Brother at Yokohama -- Chinese Troops Meet With Sanguinary Defeat.

Japanese papers received by the

er Idzumi Maru devote columns to

of how W. J. Weaver, owner

American schooner yacht Norma Honolulu, it is said, en route Francisco, swindled Yokehama dents, aided by his wife and M Mrs. Percival. The party reach kohama last June, and Weaver, w ported to be commodore of the New Y Yacht club; made many friends Japan Herald says poker appears the chief diversion, or, in after developments, it were better to the business, of the party. They dently played well, for those who went out to the yacht to play invariably le their money there. Many were the contracted by the party in Yokohama and many were the creditors that mour ed a sudden departure of the Norna After the departure of the yacht Porcival said he had given Weaver a bot tomry bond on the Norna at Singapore for £555. He was not in possession of the ship's papers, however, as he should have been. When the Norna left, the Pervivals were short of funds, and he applied to the Chartered Bank to wire his London bankers for funds. They re fused to wire money, offering to mail it This taking too long for Percival, the Chartered Bank offered to advance £200 if some one would back the cheque. A tourist did it on the security of Mrs. Percival's jewellery, and the next day the pair skipped out on the Nippon Ma-

ru for San Francisco via Honolulu. General Baldomero Aguinaldo, Filipino Minister of War and brother of Presi dent Aguinaldo, is at present in Yokohama. The object of his visit is to attempt to enlist, if possible, the good offices of the Japanese government

On Behalf of the Insurgents. emissary from the Filipino camp, precisely the same experience. It is of Yokohama, and it is surmised that been, drawing an allowance from the Japanese authorities, and the general, no which will net them a fortune. It is doubt, has lost no time in communicating

A Shanghai dispatch received by the

Attacked by Mobs Taipeh, Formosa. In connection the negotiation for a Japanese ed they were suddenly attacked by a large party of natives, several hundred in all. Consul Matsumoto and a police inspector were wounded. The Chinese commissioners made their escape under the pretence that they would company of braves to protect them. Matsumoto jumped into the sea and was received by a boat belonging to the consulate. All the Chinese merchants closed their doors and threatened to attack

the Japanese shops. Intelligence has been received in Can-

Defeat of the Imperial Troops by the rebels in the West river districts. A body of about 500 soldiers, has, in effect, been out to pieces; about half the number were killed outright and a molety of the remainder wounded. An engagement took place at a place called Cot-kow, on the West river, and the fight was fiercely maintained, the Imperialists being surprised and surrounded. The rebels only lost about fifty to sixty men. A fresh force consisting of about 2,000 men has been dispatched from Canton to suppress the insurrection. They are likely to find all their work cut out for

them. Upon the news of the defeat of the imperial troops being received by the Viceroy, His Excellency dispatched the Black Plag chief, Liu Yungfu, with his four regiments of Black Flags, to the rescue. These left on the 13th inst. by the gunboats Kwongyuen, Kwanglee Onching, Kiungui and Kwongon. Imperial troops already in the field have suspended operations for the present pending the arrival of the Black Flags. The brigands set fire to nearly all the villages in the neighborhood, and ninety per cent. of the houses have been burnt An edict has been issued by the Empress Dowager offering unprecedented re-

wards for the Capture of Kang Yu Wei, and other Chinese reformers. Chines are now thought to be on their way here to secure the arrest or death of the Chi-

plese reformer. The Shanghai Mercury says: We have been kindly informed by the Sin Wan Pao fhat a Peking dispatch to that paper reports that the Emperor has reloped serious symptoms of a disturb ed state of mind, muttering and laughing to himself. He also suffers from nts of the bowels and kidneys. His Majesty's prescription has been published

for public information. The police authorities at Hongkong em to be continually engaged in mak ing seizures of arms, evidently intended for shipment to the Philippines.

General Lawton is a constant smoker. and even while under fire generally has a cigar in his mouth.
