

There are some good Crustacea, a few Arachnida, and an extensive and valuable series of insects, illustrative of the received divisions, and including many rare and beautiful species.

There is an extensive series, including several thousand specimens of the shells of Molluscous animals, land, fresh water, and marine, amongst which will be found nearly all the North American land shells; and there are some good Echinodermata and Zoophyta.

In Botany there is a collection including about 6000 species, among which will be found most of our native plants. Some progress has been made in mounting and arranging them.

The Museum is open every day (excepting Sunday) from 10 to 3 o'clock, and the College Students are admissible.

§ 3.

UNIVERSITY MUSEUM OF MINERALOGY AND GEOLOGY.

This Museum has been but recently established. Already, however, about 6000 specimens have been received from Europe, and the number will be shortly increased by valuable additions from the collection of the provincial geologists.

§ 4.
