

Just About Coats

Autumn is here, and with it the very little warning of winter. During the last two or three days the change has been decidedly noticeable.

The mornings are damp and chilly, and towards evening when the sun has dropped below the horizon the atmosphere gets cooler and the Fall winds begin to blow, and send their chilly through. It is then that we decide that it is time for a comfortable Fall coat.

Our Coat and Suit Department is a veritable style center. All of the latest models are shown there. We cordially invite you to come in and inspect our showings.

See our show windows for suggestions.

Watch for announcement of the find of our Cotton Growing Competition.
