The deaf and dumb inquiry occupied all morning with an examination of Woodbridge's accounts. A. E. McIntyre on the stand. The point was sought to be made that the reports stated taxes and insurance paid for fifteen years totalled \$1,440; while the Fredericton city treasurer's books show no taxes were paid by the institution.. It was shown that the taxes were paid in Woodbridge's name personally. The salary list was gone over, and it was shown the highest salary was paid Principal Woodbridge \$500; and from that down to \$100. Considerable time was spent in going over accounts for furniture, totalling \$7,500 for the whole time, including complete refurnishing after the fire. Nothing wrong was shown up in this connec-It was shown by McIntyre that the institution has bought \$15 to \$25 worth of vegetables some years, while maintaining a farm on which all the vegetables required were supposed to be raised. Druggists' bills were examined and it was shown that a couple of bottles of perfumery, persumably for the principal's family, were charged against the institution.

CHATHAM, Aug. 29.—We have had three days of perfect weather for having, and a large quantity has been come before the police magistrate tosaved in good condition. There is still a great deal to be cut and housed as the unfavorable weather which prevailed for ten days rendered the haymakers' work impossible.

The grain crop is presenting a fine appearance, some very heavy crops being observable near town, down country in the Glenelg and Hardwicke districts the prospect for both grain and root copps is most encour-

aging. Not very many young men left this district for the Manitoba grain fields on the late excursion. By letters re ceived from some of those who did go. it is learned that the usual proportion of a rough element made itself felt on the trip out to Winnipeg, and by reason of looting of the wayside stores it was necessary for resident storekeep ers and others to guard their premises with revolvers and shot guns until the

excursion train had come and gone.

The lobster fishing season just closed has been a very successful one and the salmon fishing fair, but the mackerel fishing, except for a short season in the spring, has been almost a total failure, many boats engaged in drifting for mackerel spending whole nights in fruitless toll.

The final tests of the waterworks system is to be made this week, the being now completed and the large pump at the station being finally in order. It is to be hoped that insurance rates will be materially reduced, as Chatham can now confidently claim to be in possession of an ade-

quate fire-fighting plant. The excursions by the new steamer continue to be well patronized, and will likely be as long as the fine weather lasts, but there is no word at present of the proposed trips to Prince

Five different times within the last few years the station has been broken into. in Portland, Maine, for some time On two occasions the safe was blown open and large sums of money stolen. Davenport was arrested at his own home, where he had crawled under the bed. The sheriff was refused admission to the house by his wife and had to force his way in. Hopkins was ar- Ladysmith, Capt. E. M. Young, and rested at Florenceville. He made no resistance. Both parties finally acknowledged their guilt and took the sheriff to a place in the woods where they had the liquor hid. The deputy sheriff started on a small clue and worked energetically and successfully. There is reason to suppose that these parties were concerned in a number of burglaries in the earlier successful at-

tempts on the station. The cases will morrow morning. HOPEWELL HILL, Aug. 31.—Rev. Jos. A
