started awake. The book was open and here was a squib (Do you mind A. S.?) about teachers. Not bad! Not bad! The teachers of today just go on repeating things in a rigmarole fashion, annoy the students with constant questions and repeat the same things over and over again. They do not try to find the find the first own for the paper? Something about A and B. Now what was it? Can't have changed any. Oh yes!

A is for apples, B is for balls.

\*The long quotes are illegs; from an analysis. same taings over and over again. all angles. They are said to be they do not try to find out what the student's natural inclinations are, I doubt if it can be the same fellow so the students are forced to are. so the students are forced to pro-tend to like their studies. Nor do they try to bring out the best in their talents. What they give to the

students is wrong in the first place SHOCKS POP and what they expect of the stu-dents is just as wrong. As a result, the students hide their favorite sonal relationship with their teachers, readings and hate their teachers, ers, enjoy friendship and acquire are exasperated at the difficulty of conviction in ideas. They then may their studies and do not know what leave their teachers without turning their backs on their studies." good it does them. Although they go through the course of instruction, Dozing again. I saw as in a dream they are quick to leave it when they McDougall (the S. forester) and he was raying "now true! how true!" and i was inclined to agree with him tanks this has a faint familiar ring but maybe it's only the ringing in

The labor shortage for men the woods is still acute, not only in New Brunswick but all over Canfact he figured rather prominently; Viz: "Dere I wuz, heidin' on ta tha ada, so beys, try braving the mozin it and my interest was aroused dame wit one hand and poundin that quitoes and black flies and earn five dollars a day.

Co-ed employment is a little bepile this short biography.

Scene descriptions which, though your the forester's scope, however the British lumberjills swung a known Engineering School at the

operating to the extent of notifying their committee when they have obtained employment

Continued from page one) course proved extremely successful from it's opening in the summer of 1945. When the course commences this year on July 3rd, students who took the course last year will enter the senior class.

Three times a week this group will produce a program over CBC. There will be approximately 60 students in the institute.

Which all goes to show that studying isn't seasonal.

and children, I can swim". Thus demonstrating his gallantry and utter selfishness. This gem, by the way was carefully added to the repetoire of a light sleeper a few miles

Another historian states that in his second go at his sophomore year the spent three years as a Freshman, four as a Sophomore and untallied years as a Junior another present day Engineering custom he originated. Of these postponements of his graduation he said, "Why should I work for money, my ol' man's got piles.") When he was shown a compass for close on to the hundredth time he pushed it aside, and anticipating present day Engineers' attitude by a good many sea-sens, deciared "Never use it! I kin find my way to the Powerhouse

The world was sauly shocked at his untimely death when he stood in a bath-tub and stuck his finger in an empty light socket. His dying word has been relayed down through the years as a precise and expressive method for demonstrating pain We will forever be indebted to him for his well-chosen and timely
