Closing address of Prosecutor :-

Pl was in picture. If man wanted to get to river crossing he would have little difficulty.

Closing address of Defending Offr

Evidence shows Leblanc was nervous. Had been caught in our own banage. Evidence of two witnesses differed. Leblanc might have missed Coy HQ in dark. Topo was in ploughed field and would be hard to see. If he had reached river bank he would have had a hard time finding Coy objective, if alone. Coy moved next morning. Might easily take two days to find his pl, if he became lost.

Plea in Mitigation

Leblanc in action with WNSR from Artona to Hitler Line. He was pinned down for two hours by enemy and our artillery fire at Hitler Line. Most of Coy HQ, including Leblanc was wounded. Came to C.O.H. in Sept 44 from hospital. Again wounded in steno attack. As crime sheet shows, his behaviour has been good.
