Romania and Bulgaria.....	3	4	100	1,474	1,474	Note: Great difficulty is always experienced in forming this table, because of the inaccuracy of the territory, and also for want of uniformity in methods of collection. The statistics are, therefore, for example, to report the baptisms throughout Great Britain and its dependencies, while chapel sittings, or church accommodations are not enumerated in England. For America, Great Britain, Sweden, Germany, and a few other countries, as well as our mission fields, the figures are for 1890; the remainder for 1889. The "non-reporting churches" included under Great Britain are from Dr. Booth's estimate, and include those churches which have withdrawn from the "Baptist Union" of England.		The above is taken from the American "Baptist Year Book" for 1891, with the exception of the figures representing the churches under our own Convention.
