## CLOTHES TO FILL MANY NEEDS

Farm and Dairy patterns shown in these columns are especially prepared for Farm and Dairy's Women Folk. They can be relied upon to be the latest models and include the most modern features of the paper patterns. When sending Farm and Dairy's Women Folk be careful to state best or worst measure for adults, age for children and the number of patterns desired. Price of all patterns is Our Folks, six each. Address all orders to Pattern Dept., Farm and Dairy, Peterboro, Ont.

## Saw Your Neighbors' Wood

IN that way you can make the Renfrew Standard gasoline engine pay for itself. You can readily get from \$7.50 to \$12.00 per day for your engine and your own services. Your expenses would not exceed \$1.50 per day for gasoline and oil. That gives you a net \$6.00 to \$10.00 profit for a day's sawing. One of our customers made \$350.00 in six weeks, and another customer, with a small-sized engine, made \$175.00 in thirty days. You can do the same.

## Renfrew Standard

*It starts without cranking*

The Renfrew Standard Portable Sawing Outfit shown above is the handiest, most efficient sawing outfit on the market. Besides being simply unequalled for sawing cut wood, fence posts, poles, etc., it can also be used for any other purpose that a regular portable engine can be used for.

Like all other Renfrew Standard engines it starts without cranking in cold or warm, rainy or snowy, weather. It can be regulated to any desired speed without stopping the engine. Has a governor of the fly-ball steam-engine type, a remarkably simple carburetor, and large bearings. Built throughout of the best materials and with absolute accuracy. No finer engine on the market—and none so simple or so easy to run.

Write for booklet giving complete description.

Agencies Everywhere in Canada

THE Christmas season is over and the popularity and good sense of a we are now well launched on an front closing is quite as apparent on other year. In all probability dresses for young girls as on those the home dressmaker has been too for their elders. Design 9526, shown herewith, carries this desirable feature and has many other good points. The deep cut fronts outline a chemise that may be made of lawn or some contrasting material. The neck edge is finished with a pretty collar. The skirt is gored. Cut in four sizes: 8, 10, 12 and 14 years.

A new and popular model of ladies' jacket is seen in 9707. If something serviceable and plain is desired this design could be featured in broadcloth, cheviot, or serge, but if one wishes to have a more elaborate coat it could be fashioned out of velvet, plush or silk. The fronts are crossed and finished in cut-away style and are rolled at the upper part to meet a coat collar. Six sizes: 32 to 42 inches bust measure.

A garment that is almost indispensable when one is wearing a thin one-piece evening dress is a Princess slip. By wearing a slip the outer garment is sure to fit much more neatly. The model 9714 is fitted by side, front and underarm seams. If preferred the flounce may be omitted. This design is cut in sizes for misses of 14, 16, 17 and 18 years.

A charming gown for afternoon wear is shown in illustration 9734. Striped serge in a two-toned effect of light gray and with embroidery for trimming is here shown. The surplice fronts are cut low, revealing a chemise finished by a broad collar.

The back of skirt is deep longwise tuck. The waist may be finished with a plain close fitting sleeve in wrist length or a shorter sleeve with deep cuff. Cut in five sizes: 34 to 42 inches bust measure.

Considerable ingenuity has been exerted in designing new blouses this season, both for special occasions and for the simpler requirements. In 9728 we have a becoming style showing the long shoulder. The neck edge is cut square below the chemise, which may be omitted if preferred. Striped silk could be featured after this model to good advantage. Six sizes: 32 to 42 inches bust measure.

A great convenience is the slip covers for hangers. It keeps the dust off suits and gowns. Purchase a yard and a half of flowered lawn, merely hem the edges of the lawn and cut a hole in the centre; buttonhole the latter, slip the cover over the hook of the hanger, and it is ready for work.
