## THE FARMER'S ADVOCATE.

51

**W. C. Edwards**  
AND COMPANY,  
IMPORTERS AND BREEDERS

Laurentian Stock and Dairy Farm,  
NORTH NATION MILLS, P. Q.

Pine Grove Stock Farm,  
ROCKLAND, ONTARIO.

**Ayrshires, Jerseys, Shropshires, Berkshires.**

Our excellent aged herd of Ayrshires is headed by our noted imported bull Cyclone. Tam Glen heads the young herd, and Lisgar Pogis of St. Anne's heads the Jerseys. The young stock are all from time-tried dams.

**A. E. SCHRYER, Manager.**

**Shropshires and Scotch Shorthorns.**

The imported Missie bull, Scottish Pride, at the head of herd, assisted by British Knight. Special bargains in young bulls, young cows and heifers of the best of breeding.

**JOS. W. BARNETT, Manager.**

We can be reached either by steamboat, the C. P. R., or C. A. R.; the C. A. R. making connections with the G. T. R. at Coteau Junction. Rockland is our station on all lines.

## FEED BOILERS.

Boils Quickly with Little Fuel.

Capacity of Galvanized Steel Boiler 50 Gallons.

THE arrangement of the fire box forces the heat to travel over the entire surface of the boiler, heating it quickly. Steel and cast iron parts joined together in such a manner as to avoid their warping.

**THE MCCLARY MANUFACTURING CO.,**  
London, Toronto, Montreal, Winnipeg, and Vancouver.

If your local dealer cannot supply, write our nearest house.

## EXTRACT FROM ANNUAL REPORT FOR 1897

OF THE  
CONSULTING CHEMIST OF THE ROYAL AGRICULTURAL  
SOCIETY OF ENGLAND.

Published in their Journal, 31st December, 1897, page 732.

"It has been necessary to call attention to the fact that under the name of 'slag' and sometimes even under that of 'basic slag,' have been sold refuse materials of a very different character, and having little or no manurial value. These have not been the product of the now well-known 'Basic' or THOMAS process of iron or steel making, and have contained little or no phosphoric acid such as basic phosphate has. In several instances the purchasers believed that they were buying the true basic slag. It behooves one, therefore, to be careful to stipulate for THOMAS-PHOSPHATE, and to have a guarantee of phosphoric acid contained, and of fineness of division."

WE HANDLE THE ONLY TRUE

## THOMAS-PHOSPHATE POWDER

SOLD IN CANADA,

And to be sure of genuine material see that the bags have our name and address.

**WALLACE & FRASER,**

Masonic Block,  
ST. JOHN, N. B.

Canada Life Building,  
TORONTO, ONT.

## Watford Tread Powers

We hold the record for up-to-date Tread Powers. We are so often asked the question if our Governors will fit other makes of Powers. We answer YES. That's a strong point in favor of our

Powers, and intending purchasers had better make note of this and buy the Power that has the leading improvements—

## The Watford.

Over twenty years established, and in dealing with us you have all the benefits derived from experience. No other firm's goods find so many imitators as ours. Take for example our Blower Propeller Elevator Feed Cutter. Every effort has been put forth to down this machine, but

SUCCESS HAS GAINED THE DAY!

WE LEAD in Feed Cutters and Tread Powers.

Send for circulars and testimonials.

**THOM'S IMPLEMENT WORKS, WATFORD, ONTARIO.**

## GOSSIP.

MESSRS. A. & D. BROWN'S SHORTHORNS.

The extensive farming and stock operations conducted by Messrs. A. & D. Brown, near Iona Station, in Elgin Co., Ont., are in no way behind the demands of the times, and when we state that the proprietors are extensive exporters of finished cattle, and that many of their best steers are fed on their own farm, it will be well understood that the farm is in splendid shape. The loose box method of feeding, fully described in former issues of the FARMER'S ADVOCATE, is the system that Messrs. Brown adopted several years ago, and proved conclusively to them to be the proper course with such stock. At the time of our visit we saw a splendid, well selected bunch under preparation for the English block, which were about ready as soon as the market would warrant their exportation. Since 1872 a herd of Shorthorns has been kept on the farm. Their first selections were made at Messrs. John Miller & Sons, Brougham; Robt. Miller, Markham, and John Laidlaw, Galt, and it is safe to say that from Messrs. Brown's practical experience the foundation stock were the proper type—as least, we do know their pedigrees were; and from this start, with Scotch-bred bulls, also at wisely selected, the herd to-day of some 40 or more animals are a good, uniform bunch, not in show shape, but kept in their most useful form. Among the sires employed we might mention Lavender Victor 12329, by imported Vengarth 1308, and out of imported Lavender 30th 8229, who left three crops of useful stuff; in fact, among which were some splendid early-maturing cows. Following Lavender Victor came imported Warfare 6452, by the great sire Gravesend 46461, and out of Red Rosebud, doing four years of valuable service; then the two following seasons the herd was headed and strengthened by the services of Royal George, another royally-bred animal, whose progeny's strength lay in their uniformity and early-maturing qualities. Royal George was sired by Royal James (54972), and out of the noted Maid of Promise, the captor of the great sweepstakes cup in Scotland for two successive years over all animals, male and female. Some splendid young Royal George heifers are now being bred to Scotland (2375, the present sire by Scarlet Velvet 21440, and out of Centennial Isabella 23rd 24408, by Stanley (another family which brought fame to the Shorthorns of this country). The good quality of Scotland Yet does not end with his pedigree for he is a right smooth fellow, carrying a good wealth of natural muscle, and is transmitting the unmistakable Isabella qualities to his progeny, for we saw a couple of yearling bulls that are splendid animals out of Royal George dams. One in particular compares favorably with any the writer has seen of late. He is a stylish, dark red fellow, good enough for the best of company. Some good cows are also on the farm. Imported Charlotte =11008=, by Gravesend, and out of Cecelia 1st, has been in the herd six years, and is a splendid, thick roan cow, credited with some satisfactory stock, which always finds live buyers. Her four-year-old daughter, Heather Blossom, by Warfare, is a good type of a cow, and sucking a good weanling calf to Scotland Yet. The four-year-old roan cow, Character, by Warfare, and out of Leda Kelsa 1882, is a deep, thick-fleshed animal, with plenty of quality, and carrying her third calf. Her full sister, a year older, has also been a highly profitable animal. Another of Warfare's daughters is the three-year-old red cow, Euphemia, out of Ruby Syne 18638, which would have made a grand showing animal had she been reared with that in view; she now suckles a red heifer calf. In all, we were shown 14 breeding cows, half a dozen yearling heifers, and four two-year-olds.

## Annual Meeting of the Canadian Poultry Association.

A large number of members, including some ladies, attended the annual meeting of this Association, held in Toronto, Jan. 12th, 1899. Dr. Bell, the president, occupied the chair, and in his address showed the need of a revision of the prize list to meet such a state of affairs as the extraordinary number of entries in the Barred Rock class, where the prizes given were the same as in a class with only three or four or less.

The Treasurer's report showed a balance of \$99.97. Sec. Thos. A. Browne, read an application from Owen Sound for next year's show, and a verbal invitation was given by a delegate from Peterboro. The President then made a strong plea to have the papers, which had been prepared for the meeting and printed, discussed at once before it got too late, but the meeting was too keen for the election of officers and the selection of the next meeting place to consider it. Peterboro was selected as the place for the show of 1900, getting 64 votes as against 55 for Owen Sound.

J. R. Stratton, M. P. P., was elected president, and Allan Bogue and M. T. Burns first and second vice-presidents. Then ensued a long and unprofitable wrangling as to the mode of electing directors. At last a selecting committee drew up a list, which was accepted with one change. The following will represent the different districts: No. 5, D. C. Trew, Lindsay; No. 6, Dr. Bell, Toronto; No. 7, T. J. Senior, Hamilton; No. 8, T. Hutton, Welland; No. 9, T. H. Scott, St. Thomas; No. 10, Thos. Brown, Durham; No. 11, W. McNeill, London; No. 12, J. W. Kedwell, Petrolia; No. 13, W. J. Bell, Angus.

Delegates: To Toronto Show, Barber and Durston; to Western, H. Sanders and J. McCormick; to Hamilton, Cole and Dickenson; to Brantford, T. A. Cox and W. Colwell.

The question of score cards for judging was brought up, but the feeling of the meeting was overwhelmingly against them. Dr. Bell again brought up the revision of the prize list, which was referred to the directors to settle. The papers were taken as read.

Thus ended a singularly unprofitable meeting. Had half the time been devoted to discussion on the many excellent papers prepared, some good points would, no doubt, have been brought out, and beginners would have been able to learn something instead of getting the bare husks as they did.

R. & S. Nicholson, Sylvan, Ont., write us: "Our cattle are coming through the winter nicely. We intend holding a sale on or about the 8th of March, at which we will offer about 30 head of choice Shorthorns. For further particulars see February issue of the FARMER'S ADVOCATE."

## LITTLE'S PATENT FLUID SHEEP DIP AND CATTLE WASH

## THE ORIGINAL Non-Poisonous Fluid Dip

Still the favorite dip, as proved by the testimony of our Minister of Agriculture and other large stockmen.

## FOR SHEEP:

Kills ticks, maggots; cures scab, heals old sores, wounds, etc.; and greatly increases and improves growth of wool.

## CATTLE, HORSES, PIGS, ETC.:

Cleanses the skin from all insects, and makes the coat beautifully soft and glossy. Prevents the attack of warble fly. Heals saddle galls, sore shoulders, ulcers, etc. Keeps animals free from infection.

## NO DANGER! SAFE, CHEAP, EFFECTIVE.

BEWARE OF IMITATIONS.

Sold in large tins at... 75c. Sufficient in each to make from 25 to 40 gallons of wash, according to strength required. Special terms to breeders, ranchmen, and others requiring large quantities. Sold by all druggists. Send for pamphlet.

**ROBERT WIGHTMAN, DRUGGIST,**  
OWEN SOUND, ONT.  
Sole agent for the Dominion.

**SCABBY SHEEP. \$5000 REWARD**

To any party who can produce a scabby sheep which the Lincoln Dip will not cure. Write for particulars. Lincoln Sheep Dip Co., 855 Elliott St. Bldg., Buffalo, N. Y.

Canadian Office: WEST CHEMICAL COMPANY, 15 Queen Street East, Toronto.

## SMITH EVANS, GOURK, ONT.

Breeder and importer of registered Oxford Down Sheep. Selections from some of the best flocks in England. Stock for sale at reasonable prices. Inspection invited. 6-1-y-o

## LARGE YORKSHIRES OF HIGHEST QUALITY.

IMPORTED and Canadian boars and sows of all ages. My stock of hogs is larger and better than the best quality of bacon hogs to be purchased in England are now in the Oak Lodge herd. Write for prices.

**J. E. BRETHOUR,**  
BURFORD, BRANT CO.

## MARYSVILLE HERD OF IMPROVED YORKSHIRES AND BERKSHIRES

Have no more for sale at present. Will book orders for spring pigs from the same stock as I breed my winners from. My Yorkshires have been herd winners for three years in succession at Toronto.

**R. G. MARTIN, Marysville, Ont.**

## PINE GROVE FARM HERD OF LARGE YORKSHIRES.

Imported and Canadian herd, from the Hasket family, which has taken more prizes at the leading fairs in Canada and the World's Fair at Chicago than any other family of Yorkshires in America. Young boars and sows fit for breeding for sale. Correspondence solicited, which will receive prompt attention.

**JOSEPH FEATHERSTON, Streetsville, Ont.**

## DUROC-JERSEY SWINE

The earliest established, the greatest prizewinning and most reliable herd in Canada. If you want length, try them. If you want depth of side, the Duroc-Jersey will give it.

If you want quiet, easy feeders and good weighers, they have no equal. If you want pigs, get the Duroc-Jersey, they are the most prolific. If you want Duroc-Jerseys, we have them pure. We keep no others. They are quiet, non-squealers, prolific, long, deep and heavy. Just the pig for profit. Write us.

**TAPE BROS., Ridgetown, Ont.**

## Berkshires, Berkshires, Berkshires.

My herd contains such blood as Baron Lee, Varna Duke, and other imported strains, with the celebrated sire, First Prize, at the head.

**WM. McALLISTER, VARNA, ONT**
