Mr. Moore during his stay in Derry was recognized as a most efficient and courteous official, and his appointment to an important position in Stratford-on-Avon has given general estisfaction. satisfaction.

Belturbet bids fair to be the very up-to-datest town in the good old country of Cavan. On the evening of Jan. 12, the town was lighted by electricity, which now takes the place of the antiquated "gas lamps," and bye the bye, the town will be the richer in its splendid educational facilities by the addition of a brand new commercial school, being erected by the Sisters of Mercy, whose mother house is located in the town. ther house is located in the town.

Opening the Ennis Quarter Sessions, County Court Judge Bodkin, K.C., said there was only one case of assault to go before the Grand Jury. It was a matter for congratulation that in that wide district there was but a single offence for trial—that there was not a single offence against property. The only offence before them was in the nature of an assault. He thought it was a matter of congratulation that, so far as ordinary crime was concerned. ter of congratulation that, so far as ordinary crime was concerned. Clare—and he believed the same remark applied to all Ireland—compared favorably with any district or country in the world.

The Sinn Fein candidates sustained The Sinn Fein candidates sustained a crushing defeat in Wexford urban elections. Mr. William A. Brown, returning officer, declared the result as follows: St. Iberin's Ward—F. O'Connor (N.), 272 (re-elected); John O'Connor (N.), 241 (re-elected): David Reid (Sinn Fein), 90; Tahn Sizmet (Sinn Fein), 72 St. ed); David Reid (Sinn Fein), 90; John Simmot (Sinn Fein), 72. St. Selskar's Ward—James McMahon (N. Labor), 166 (elected); Benja-min Hughes (N.) 137 (re-elected); John Kehoe (Sinn Fein), 92.

Thousands of people have scene of the bog slide at nore, Co. Galway, and follow a interest the line taken by Kilmore. with interest the line taken by the bog from its slip till where it has now stopped in all probability permanently. f All danger from a permanently. I All danger from a further slip in the same direction seems to be now at an end, and the people seem to be recovering from their fright. Large gangs of men are still employed in they vicinity of Kilmore keeping the drains and riveropen so as to let away the water collected. The main road at some points is still flooded.

His Eminence Cardinal Logue, in a letter to the Very Rev. Dr. Kielty, P.P., Ballygar, enclosing a generous subscription for the victims of the Galway bogslide, says the sad emphasizes a want which currence emphasizes a want which has been long felt and acknowledged in Ireland—the want of arterial drainage. Large tracts of the country are waterlogged, and there is no means of drawing off the water, which is rendering those districts almost useless.

The magnificent glass window pur-The magnificent glass window purchased by the priests and people of the parish of Wicklow to commemorate the memory of the late pastor, Rev. Thomas Carberry. P.P., was put in position in the parish church recently tly. The window is a fine of art, and will be a lasting tribute to the memory of a devoted priest and a true friend of the flock whose spiritual and temporal interests he had so much at heart.

Mr. R. S. Moore, a well-known Irish railway official, has been apage accident on Jan. 22. He was hunt-

ing with the Meath hounds, and when near Drummee the horse stumbled and Col. Carson was thrown to the ground and sustained fractures of the ribs and bruises about the body. He was conveyed to Dublin, where he was treated by Dr. F. P. Newell and Sir Lambert Ormsby.

for some weeks. Mr. Treanor, who was an ardent Nationalist, was one of the oldest residents of Monaghan. He had been a member of the Board of Guardians, being the first Catholic member who sat on a public board in the county for a number of years, and since the passing of the Local Government Act until last year was a member of the Urban Council.

The Care of the Teeth.

(By J. M. Robeson, in Physical Cul-

ture.)
In the last issue, I called attention to the imporatnce of the care of the teeth from a viewpoint of cleanliness. The value of this advice cannot be emphasized too strongly, if one desires to retain his teeth to the end of life. There is really no excuse for the loss of one's teeth, and there is little or no excuse for the decay of the teeth if they are cared forproperly. Where the ordinary diet is followed. Where the ordinary diet is followed, this care is really essential.

The teeth should be thoroughly The teeth should be thoroughly cleansed at least once each day, and if this process is gone through twice daily, it will be greatly to one's adthoroughly vantage.

But no matter how carefully you clean the teeth it should be remembered that the teeth need nourishment just the same as any other part of the body. The various elements that feed the bones, which are richly supplied in many of our foods, are really necessary to properly supply the nourishment needed by the bones of the body. The various elements that feed the bones, which are richly supplied in many of our loods, But no matter how carefully you richly supplied in many of our loods richly supplied in many of our loods, are really necessary to properly supply the nourishment needed by the bones of the body. The teeth, therefore, need to be nourished in order to maintain them in a proper condition of health, just as does any other part of the body.

The versues complicated and tasty.

The various complicated and tasty dishes that are so popular with many of us are often grossly deficient in bone-making material. The nourishment necessary for feeding these parts of the body is found largely in the orderion parts of greeine and found The parishioners of the united parishes of Castlemartyr, Mogeely, Dungourney, and Clonmult, Middleton, are taking practical steps to perpetuate the memory of their late pastor, Rev. Michael Aherne, who had been, prior to his death six months are, in charge of the united parishes for more than fifteen years.

The parishioners of the united parishes is part of the body is found largely in the exterior parts of parish and various vegetables. As is well known, these exterior parts are often taken off and thrown away, or else fed to the domestic animals, while we consume the interior parts.

The parishioners of the united parishes of Castlemartyr, Mogeely, Dungourney, and Clonmult, Middleton, are taking practical trace parts of the body is found largely in the exterior parts are of the united parishes of the body is found largely in the exterior parts are of the united parishes of the body is found largely in the exterior parts are of the united parishes of the body is found largely in the exterior parts are of the united parishes of the body is found largely in the exterior parts are of the united parishes of the body is found largely in the exterior parts are of the body is found largely in the exterior parts are of the united parishes of the body is found largely in the exterior parts of general various vegetables. As is well known, these exterior parts are of the united parishes of the body is found largely in the exterior parts are of the body is found largely in the exterior parts are of the body is found largely in the exterior parts are of the body is found largely in the exterior parts are of the body is found largely in the exterior parts are of the body is found largely in the exterior parts are of the body is found largely in the exterior parts are of the body is found largely in the exterior parts are of the body is found largely in the exterior parts are of the body is found largely in the exterior parts are of the body is found largely in the exterior parts are of the body is found largely in the exte The peeling of the apple, for instance, contains far more nourishment from this standpoint than does the inside of the apple. The husks of various grains, and the material that usually adheres to them, are very rich in elements that feed the bones, and when we understand the bones, and when we understand that this is in nearly all cases removed when preparing the grains for use as human food, you will then under-stand one of the very prominent causes for bad teeth. In many dis-tricts of this country the people are actually starving their teeth

actually starving their teeth to death. White flour, for instance, which is supposed to be the staff of life is ruinous to the teeth, if a large proportion of your diet consists of products made from this partial food.

tial food.

I once lived in a section where the diet was limited. It was in a country where grocery stores were not close at hand. The farmers did not understand the importance of a garden, and most of them had become a little too "high-toned" to eat cornbread though in many cases, they little too "high-toned" to eat corn-bread, though in many cases, they had been largely raised on it. White bread, therefore, was the staple ar-ticle of diet. Of course, hog in va-rious forms, bacon, ham, etc., was usually added to it, but as can rea-dily be realized the combination really made a starvation diet. at least as far as the teeth were con-cerned. And I must admit that the muscular and nervous system much have suffered to an almost, could degree, because I have never been in a community where there were more weak women and poorly developed men than there were at that parti-

men than there were at that parti-cular place.

But referring back to the teeth, I was at that time working in a den-tist's office, and although the small town in which he resided did not town in which he resided did not have over a thousand population, there was no lack of patronage. Again and again, while employed in this office, I have seen young women not over twenty-five or twenty-eight years of age, have every tooth in their head removed solely because their teeth had been starved to death. The dentist on examining them would find frequently that they were nothing more than mere shells. There was no need of trying to fill them, or bridge them over. The only thing that could be done was to remove them, and to 'use false teeth

move them, and to use false teeth

in their place

in their place.

On a diet of white flour products, the teeth become brittle and soft, they will often break off if you happen to be chewing anything especially hard. If you manage to tain your teeth in spite of such tain your teeth in spite of such a diet, beyond thirty, you must indeed be possessed of extraordinary vigor, through inheritance or otherwise. One must remember that the teeth must be fed. Furthermore, the teeth must be used. must be used. You cannot expect to retain your teeth if you eat nothing but soft, mushy food at all times. You have often heard the remark that the teeth of a cow fed on slop food will fall out, and it is exactly the same with human beings exactly the same with human beings. If the food you are eating does not require chewing, then you ought to indulge in some other food. Attention has already been drawn to the necessity of mastication, but it is so important that it is reiterated. Ho-

serves a high place in the regard of the people.

In addition to the necessity for mastication, if you expect to have good teeth, you must avoid products made from superfine flour. Do not be afraid of eating the covering of time tending the covering of time tending the to find

race Fletcher, who is such a strong advocate of thorough chewing.

IRREGULARITY OF THE BOWELS

Any irregularity of the bowels is always dangerous, and should be at ence attended to and corrected.

MILBURN'S LAXA - LIVER PILLS

work on the bowels gently and naturally without weakening the body, but, on the contrary, toning it, and they will if per-severed in relieve and cure the worst cases

severed in relieve and cure the worst cases of constipation.

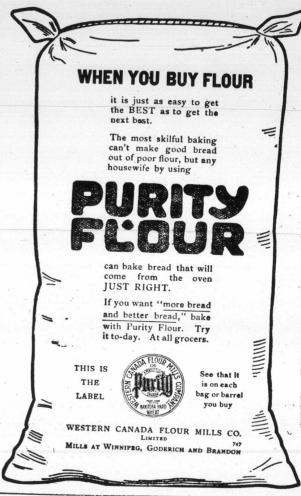

Mrs. James King, Cornwall, Ont., writes:
"I was troubled with sick headaches, constipation and catarrh of the stomach. I could get nothing to do me any good until I got a vial of Milburn's Laza-Liver Pills. They did me more good than anything else I ever cried. I have no headaches or constipation, and the catarrh of the stomach is entirely gone. I feel like a new woman, thanks to Milburn's Laza-Liver Pills. I used in all about half a dozen vials."

Price 25 cents a vial, 5 for \$1.00, as all dealers or mailed direct by The T. Milburn Co., Limited. Toronto, Ont.

Time Proves All Things

One roof may look much the same as another when put on, but a few years' wear will show up the weak spots.
"Our Work Survives" the test of time."

GEO. W. REED & CO., Ltd. MONTREAL. **************

using food of this nature cannot produce a single instance to prove their statements. They are simply so engulfed in theories that they have not the intelligence or the leisure to search for facts. To be sure, if you are eating white bread and a great variety of other things, you may not notice its effects upon the teeth. You may be able to secure neurishment from various other articles had. now may be able to secure nourishment from various other articles, but I would certainly advise you to use the whole grain. If you cannot get bread including the bran, then buy the wheat and grind it yourself. It is a very easy matter to secure as a very easy matter to secure a small mill, and you can grind—up wheat for a loaf or two of bread in a very short period, and wheat freshly ground in this manner always makes far better bread, it is really delicious.

delicious.

Instead of searching for food that instead of searching for food that is soft and easy to masticate, try to cultivate the opposite habit. Do not be afraid of the peelings of apples, peaches, pears and various other fruits. They are rich in nourishment, and if you are really and truly highery they result tested. ishment, and if you are really and truly hungry, they usually taste appetizing. This is especially true if the fruit has been properly ripened. Of course, I do not mean to convey the idea that you should eat the peelings of fruit like banamas, but whenever the outer covering has a pleasant flavor, it can be recommended as being advantageous

Ireland's large proportion of claims received by the Old Age pension officers is evoking comment. She has half as many as England, and considerably more than twice as many as Scotland and Wales put together. Among the Irish claimants, Charles Kelly, of Lettermore, in one of the wildest and most mountainous districts of Doneral deserves notice. Among the Irish claimants, Charles Kelly, of Lettermore, in one of the wildest and most mountainous districts of Donegal, deserves notice. His family are in possession of information which proves conclusively that he has reached the extraordinary age of one hundred and eleven years. Notwithstanding this, his sight and hearing are but slightly impaired, and he still takes an interest in the working of the little holding on which he resides; and which for the past thirty years has been in the possession of his son Denis, a man approaching his sixticth year, with two fine, strapping sons twenty-live and twenty-six years of age, and a couple of daughters already blossomed into woman-bond. Ponegal hoosts of the number of its ancient inhabitants, but

using food of this nature cannot pro- there is none more interesting than

Charles Kelly.

When interviewed recently he was seen watching with interest his daughter-in-law spinning wool on an ancient Irish spinning-wheel. As the old man does not speak English, the interview was conducted through his son. He has never lived out of the parish of Inver, in which he was horn one hundred and eleven years ago. He was over thirty wars of ago. He was over thirty years of age when he married, and has a vivid recollection of the struggles he underwent in tiding over the awful years of the famine. Remote from towns, and unable to read or write, he has but little recollection of the historical or political events which ago. historical or political events which took place during his life, but speaks with sorrow of the friends of his vouth, the majority of whom were carried by the emigrant ships across the Atlantic. He jokes with anima-tion on the labors of his early days. when he carried on his back the adjoining moors every stone for the construction of his house, and the blue clay and manure which have made the surrounding fields comparatively fertile.

Death of Famous Irish lesuit

commended as being advantageous.

Naturally all the various green vegetables such as are used in salads, cam be recommended, not only for the value of the elements they contain for feeding the teeth, but also for eighty-five there passed away two weeks ago at Milltown Park, Dublin, a famous Jesuit preacher and missioner, Rev. William Kelly. He was one of three for either properties. to eariaid of eating the covering of the various grains that you may use for food. Eat whole-wheat bread instead of white flour. Do not worry about the bran irritating the alimentary canal. That conclusion is "bosh" absolutely. Those who maintain that injury results from IRREGULARITY

To other properties.

It is really deplorable to find so many toothless men and women. Remembers of the Society of Jesus. Tenther William, the eldest of the three, studied for some years in Maynoth the bran irritating the alimentary canal. That conclusion is "bosh" absolutely. Those who maintain that injury results from IRREGULARITY

To other properties.

It is really deplorable to find so many toothless men and women. Remembers of the Society of Jesus. The themselves and the ordinary care necessary for keeping them thoroughly clean.

The real william, the eldest of the three, studied for some years in Maynoth College, and later on joined without good strong teeth, provided by our give them the nourishment they need and the ordinary care necessary for keeping them thoroughly clean.
