there is a shuffling in the places. | Ald. McFee is a fearless debater and New men are coming to the top. And Ald, W. S. Smith, who left the Board of Education a few years ago in order to enter the council has seen his aldermanio star reach its highest point. Yesterday, he was given the high honor of heading the aldermanic poll with a total of 945 votes, surely an aldermanid record. From the time of the earliest returns, it was seen that the worthy councillor and his progressive policy were the favorites. His gressive policy were the favorites. His mpthish the assessment" propaganda has met with unequivocal approval, for byta majority of 821 the question submitted to the electorate as to the publication of the assessment was carried. This was but one of the many

the citizens in his policy.

Ald, Dr. Platt, the genial chairman of Public Works followed Ald, Smith closely. He favored the publication of the assessment and the same messures as Ald Smith and the result is patent to all.
