Of Thirty Occupants of Boat Only Ten of Then: Escape

VICTIMS MEN PITTSBURG, Pa., May 11 .- Twenty persons are missing, and all of them are believed to have been drowne when a gasoline launch sank in th middle of the Ohio River near Shoenville, four miles below Pittsburg, to-

day. Of the thirty occupants of the boat only ten are known to have escaped.

All of the victims were men and were employes of the Pressed Steel Car Company at the McKee's Rock plant. They had worked overtime until eight o'clock and left the works to cross th river in the launch about fifteen mir utes later. The boat is said to have been intended for not over twenty persons, but that all the men wanted across the river on the first trin and thirty of them crowded in. As the men started out in the boat one of them is said to have remarked that it seemed to him to be overcrowded and he feared it was not safe to attempt the trip. Albert Graham, the pilot and one of those who is missing, is reported to have replied that it was safe enough all right, as he had twenty-seven persons aboard last night. No more was said about the load, but en the craft reached the middle of the stream, where the water is per haps twenty feet deep, it suddenly

There was no explosion, no leak was sprung; the boat simply sank beneath weight it had been bearing and went to the bottom. As it sank the vortex took many of the men down with it. Others attempted to swim shore but were chilled by the cold water and became exhausted before reaching the shore.
