Constantly increasing knowledge and the perfection of many new discoveries have been combined to make Hydro Quality Lamps the best that your money can buy.

Now you can replace three wasteful old style Garbon Lamps with one modern Hydro Quality Lamp. By making this change you will get a brighter, softer light-easier on the eyes-better in every way. But the point of greatest importance is that you will use only 1/3 as much current—yet get the same amount of light. Why not stop this waste in your home to-day?

We'll gladly give you full information and see that you get genuine Hydro Quality lamps.
