The annual business meeting of the Presbyterian congregation of Wolfville and Grand Pre was held in St. Andrew's church on Wednesday evening. There was a good attendance and the reports presented were of a most encouraging nature.

During the year the church has purchased and paid for a new organ besides paying a good proportion of the debt on the church and most notably a very valuable amount to denominational objects. Dr. F. J. Harvey, Prof. Steinhilber, Miss Annie Stewart, Mr. Gen. Chase and Mr. J. C. Mitchell composed the managing board for the coming year.

In 1915, Canada consumed over 55,000,000 gallons of gasoline. Of this amount about a per cent was produced from Canadian wells, while the remainder was either imported direct or produced from imported crudes. This fact alone is a strong argument in favor of Canadian oil. It is stated that 40 per cent of the gasoline used in Canada was obtained from Canadian crude oil.

General Townsend's army in Mexico, which was defeated by a vastly superior force only consisted of twenty thousand men. This fact is well known, but it has only recently become public that General Wanda's successful army consisted of 100,000 men. It is not only a fact but the knowledge of an extended line of railway communication from the naval base at St. John's to the west, as well as an improved and strengthened river system.

To Our Customers:

We desire to thank all our friends and customers for their generous patronage during the past year and wish them all a Happy and Prosperous 1918.

The house was packed to its utmost capacity. The girls, who are already highly esteemed for the service they have rendered, proved beyond question that their talents are many and varied. The music was under the able leadership of Mrs. Richmond, to whom much credit is due.

Opera House.

Something new and a real treat is in store for patrons on Monday and Tuesday, Jan. 22nd and 23rd. In fact all next week will be a banner week at the Opera House. Monday and Tuesday Dorothy Phillips in 'Triumph' will please you all. An idea of the story is as follows:

In these days of statistics and estimates the interesting disclosure has been made, by a wise man with a sharp lead pencil, that nine girls out of ten are, at some time in their youth, an 'average struck.' Samuel Hopkins Adams must have been of a like opinion when he contributed 'Triumph' to Collier's. Mr. Adams took for his heroine the belle of a country town who had made a great hit with her friends when she played the role of Rosalind in an amateur performance of 'As You Like It.' This success inspired the girl's ambition; she resolved the world paying homage to her greatness. She decided to run away from home (as hundreds of girls have done in real life) that she might dazzle the world through the brilliancy of her artistry. She will reflect in gripping episodes the career of this talented girl in possession of 'Triumph' with pretty Dorothy Phillips playing the role of the country Rosalind.

For Wednesday and Thursday 'Those Who Toil,' featuring Nance O'Neal, is a powerful play dealing with the wrongs of labor. This feature is full of action. The scenery is beautiful and realistic, but the prettiest of all is a view of New York's Great White Way at night and a view of burning oil tanks at night in the oil fields. They are bits of realism that are worth seeing.

Friday and Saturday, Jan. 25th and 26th, will close the most successful series ever presented in the Opera House at Wolfville. Mrs. Vernon Castle has made a lasting impression with the patrons and we hope to bring her here in some of her features in the near future. Also on Friday and Saturday we will commence our next serial which we are quite sure will be most interesting and perhaps please the ladies far more than Patria; for this feature serial has made a decided hit in large cities and I feel sure will be very entertaining for the ladies of Wolfville; and I assure you that all who follow 'The Neglected Wife,' featuring Nellie Boland, will look forward for every Friday and Saturday to come. 'The Neglected Wife' is the story of a young girl's struggles to become a writer and her adventures with a man who is already married. The opening instalment is called 'The Woman Alone' and shows Margaret Warner's brave battle against discouragement and poverty.

'DO WELL IS BETTER THAN SAY WELL'

But it is necessary for the business man to 'Say Well' first, or people will not know that he will 'Do Well.' Advertise and then live up to your advertisements, or better. It is the open road to prosperity and the confidence of your fellow citizens.

The food situation in the Allied countries of western Europe is graver than it has been at any time since the beginning of the war. Information has been received by the Food Controller which shows that the utmost effort must be made to increase spring acreage and to secure a much larger production of bread grains in 1918 than was done in 1917.

Mr. Hoover has already pointed out that if ships have to be sent to more distant countries to carry food stuff to Europe, fewer ships will be available to carry soldiers and supplies from this continent, with a result that the continued participation of the United States and Canada in the war will be greatly hampered.

The situation has been thoroughly canvassed, and among those who have studied it, there is unanimous agreement that the only solution of the food problem is greater production in North America. In this connection it is especially important that the spring acreage in bread grains should be as large as it can possibly be made.

Every person who can possibly produce food must do so, no matter how small his or her contribution may be. Those who cannot produce food, can at least conserve it. The economy is imperative in the situation to-day is critical and the world is rapidly approaching that condition when price will not be the most important question, but when even the people of Canada will be glad to eat any food which they can obtain.

The successful prosecution of the war by the Allies will depend to a very large extent upon the extent of food production and food conservation this year by the people of North America.

Bern Knudde in a recent message says 'The food position in this country, and I understand in France also, can without exaggeration be described as critical and anxious. I am now unable to avoid compulsory rationing. I fear it will have to come with a large number of people in practically every town in England for the daily necessities of life.'
