

### D. A. R. Timetable

The Train Service as it Affects Wolfville.

- No. 96 From Annapolis, arrives 8.01 a.m.
- No. 95 From Halifax, arrives 9.50 a.m.
- No. 98 From Yarmouth, arrives 3.52 p.m.
- No. 97 From Halifax, arrives 6.27 p.m.
- No. 99 From Halifax (Mon., Wed., Sat.) arrives 12.18 a.m.
- No. 100 From Yarmouth (Tues., Thurs., Sun.), arrives 4.43 a.m.

### "BETTER-ENGLISH WEEK"

(From the New York Independent.) It is said that several hundred thousand American School children signed pledges in "Better-English Week," just over, to the following effect.

"I love the United States of America, I love my Country's flag, I love my country's language. I promise

"1-That I will not dishonor my country's speech by leaving off the last syllables of words;

"2-That I will say a good American 'yes' or 'no' instead of an Indian grunt 'umhum' and 'nup um' or a foreign 'ya' or 'yeh' and 'nope';

"3-That I will improve American speech by enunciating distinctly and by speaking pleasantly and sincerely;

"4-That I will try to make my country's language beautiful for the many boys and girls of foreign nations who come here to live;

"5-That I will learn to articulate correctly one word a day for one year." This sort of thing will improve our everyday speech if it keeps on.

### WHEN PLATINUM WAS CHEAP.

(From the New York Evening Post.) Platinum is a vulgar upstart in metallic aristocracy. At the gold mines of Colombia South America, platinum first attracted notice as an all-round nuisance in the middle of the eighteenth century. The "worthless metal was thrown away so eagerly that Colombian mine dumps now are said to contain great quantities of platinum. After a while platinum became tolerated for certain purposes and was quoted at the nominal price of \$1 a pound. Whether platinum would be employed or simply pewter was long a "toss-up" judgement among some manufacturers of pitchers, cups and statuettes. But several pewter pitchers would now be traded for the platinum product; and if you have any platinum cups knocking about the kitchen you can sell the metal alone at \$165 an ounce or even more.

### THE STAMP MANIA.

(From the Los Angeles Times.) This business of making over Europe is raising havoc with the stamp collectors. Every time one of these little nations gets a new Premier or a fresh face in the City Hall, the first government business in order is the issuing of a complete new set of postage stamps. They are getting so that they send them in sheets to the philatelists and firms dealing in stamps and by this means obtain money enough perhaps to run the country until the next Saturday night. Some enthusiastic and wealthy collector is likely to start a revolution in some threadbare country merely for the purpose of getting an exclusive issue of stamps and thereby putting something over on his rivals. There are passions in philately the same as there are in art, politics, literature and love.

### DEEP WAS RIGHT.

(From Science and Invention.) Two mining engineers were discussing deep mine shafts, and one had told in glowing terms about mines in which he had worked.

"Jump into my car and I'll show you a regular mine," said the other.

Arriving at the mine they saw the hoisting engine revolving at a terrifying rate. The engineman was asleep. Rushing to the sleeping man they cried:

"Wake up man! You'll pull the cage through the roof!"

"What day is this," the engineman asked sleepily.

"It's Tuesday but stop the engine quick.

"Ah, gwan," he replied, disgustedly, settling himself back in his chair. "She wont be up till Friday."

### A TEUTONIC JAG.

(From the Philadelphia Inquirer.) Statement is made that over 20,000,000 bottles of champagne have been consumed in Germany during the last twelve months, as compared with 6,000,000 in 1914. The cost of that champagne is about \$32,000,000, which makes us wonder how it compares with the amount that has been sold in the United States.

### APPENDICITIS

Warm Water Properly Applied Prevents Operations, and Has Cured Many Advanced Cases.

Hundreds of operations for Appendicitis have been avoided by the "J. B. L. Cascade," and thousands of others who have had Stomach Trouble and Constipation for years have regained their health completely. Most troubles arise from poison accumulated in the Colon, which is absorbed into the system. Internal Bathing keeps the system clean, cures Constipation and the hundreds of ills which are directly traceable to it.

These letters from among thousands in our possession should convince you that Internal Bathing brings positive results. Mr. James McLaughlin, 91 Evanston Street, Winnipeg, writes:

"I bought a "J. B. L. Cascade for the cure of a bad case of Appendicitis. My doctors told me I must have an operation at once. I had spent more than fifty dollars in Doctor bills, but the Cascade completely removed in a few days every trace of soreness and pain. I eat and sleep well now, have regained my former weight, and am now in perfect health."

A Mother from R. R. No. 1, Leamington Ont., writes: "About two weeks ago our eldest son took sick with Cramps in the Bowels so bad he could not move. Our doctor gave him hypodermic injections and ordered him to the Hospital to be operated on at once. Before doing so, however, I induced him to use the J. B. L. Cascade, and in less than a week he was up and around, and has been well ever since. It also cured me of severe headaches and Constipation. I cannot praise the Cascade enough. It certainly is a wonderful invention."

If you have Constipation, Headaches, Appendicitis, or feel languid and not just right, don't drug yourself, bath internally. The "J. B. L. Cascade" is being shown and explained at A. V. RAND, Druggist, Wolfville. Ask for booklet, or write Tyrrell's Hygienic Institute, 163 College Street, Toronto.

The Hantsport Board of Trade, though yet an infant of nine months, is certainly a live wire. Its members have the interests of the town at heart and are seeking to improve and render attractive this prettily situated district. Concrete sidewalks have been projected and the Board of Trade is seeking to extend them. They are also booming its facilities and looking forward to further improvements.

A report by A. O. Hays on the Malagash salt deposit, Nova Scotia, has been published by the Geological Survey. It contains a description of the geology of the area, notes on the character of the deposit, and a consideration of its possible extent, and is accompanied by two geological maps. Copies may be had by applying to the Director, Geological Survey, Ottawa.

A cargo of 5,000 cases of champagne has started from France to America, "for medicinal purposes. Whether this cargo of medicine will reach New York by New Year's Eve or not, says The Kansas City Star, is a matter of considerable concern, when you figure the great number of "patients" who will be in a critical state that evening.

There is to be a change in the D. A. R. time-table Thursday, Jan. 13th, when the night train from Halifax to Yarmouth will leave Halifax on Mondays, Thursdays and Saturdays at 9 o'clock instead of Sundays, Tuesdays and Fridays, as at present, and will leave Yarmouth Sundays, Tuesdays and Fridays at the same hour.

"And why is he here?" we inquired, stopping in front of Padded Cell N. 44.

"He was a politician, and when he finally got in office he really tried to carry out campaign pledges," replied the attendant.

### TIME'S CHANGES.

"You and your sister are twins are you not?"

"We were in childhood. Now, however, she is five years younger than I."

The city of St. Thomas (Ont.) recently erected three large bird houses for the housing of Purple Martins. Each house will accommodate 80 pairs of birds. The cost of each structure was about \$250. They are erected in different parts of the city and are all of the same design. On account of their size it was necessary to erect them on steel towers constructed of 1 1/2 inch angle steel. The towers are 24 feet high, each support being set into concrete abutments of 4 feet deep. The base of the tower is 2 1/2 feet by 2 1/2 feet, and 2 feet by 2 feet at the top.

A gentleman was walking along a country lane one day, when he was startled to see a man's head appear above the dirty water in the ditch.

"Why, Pat?" he exclaimed, "what are you doing there?"

The Irishman smiled sheepishly.

"Well sir, being tired of this life, I am trying to drown myself."

"But why, then, do you keep putting your head out of the water?"

"Sure, now," replied Pat, "I have to keep coming up to get my breath."

W. C. Nichol, proprietor of the Vancouver Province newspaper, has been appointed Lieut.-Governor of British Columbia to succeed the late Lieut.-Governor E. G. Pryor, who died a few weeks ago.

Fire destroyed the five story brick building of the Shuttleworth Chemical Co., Toronto. Two publishing firms, Hodder and Sloughton and the Musson Book Co. had their stocks ruined. Total loss is about \$250,000.

### Town of Wolfville

Office of Town Clerk and Treasurer.

Notice is hereby given that the assessment roll of the town of Wolfville upon which the rates will be levied in and for the said town for the year 1921 has been filed in the office of the undersigned, the town clerk, and that the said roll is open to the inspection of the ratepayers of the town.

And further, take notice that any person, firm, company, association or corporation assessed in such roll, who claims that he or it is over assessed on such roll, may, on or before the tenth day of February next, give notice to the undersigned, the town clerk, that he or it appeals from such assessment, in whole or in part, and shall in such notice state particularly the grounds of objections to such assessment.

And further take notice that if any person assessed in such roll claims that any person, firm, company, association or corporation has been omitted or wrongly inserted in such roll, he may, on or before the tenth day of February, give notice in writing to the undersigned, the town clerk, that he appeals in respect to the assessment or non-assessment of the said person, firm, company, association or corporation and shall in such notice state particularly the grounds of his objection.

Dated Wolfville, this 29th day of December, 1920.

H. Y. BISHOP, Town Clerk

Toronto University has now over 5,000 students in its various departments, and is said to be the largest university in the British Empire.

The Germans have now brought their army down to 100,000 men as agreed by Treaty.

Dr. Theobald Von Bethmann-Holweg, former German Imperial Chancellor, died last night after a brief illness on his estate at Hohenfinow, near Berlin.

Apple freights to England are down to \$1.50 a barrel with lots of tonnage offering.
