A MOVE TO QUASH CATARACT BY-LAW

Action Will be Taken If City Proceeds to Carry Out the Lighting Contract.

Special Committee Appointed to Get Informar tion About the Hydro-Electric.

The first shot in the legal battle to be waged over the power question has been fired. The Hydro-Electric people have opened hostilities. They are going to attack Hamilton's five-year lighting contract in the courts. The City Council was notified to that effect last night by City Clerk Kent, who earlier in the day received the following letter from Crown Attorney S. F. Washington:

"I am instructed by a ratepayer of the City of Hamilton to bring an ae-battle detection of the court of the most important of these was to be installed at the main switching station at Plundas, as had been stated, it meant at least 10 per cent. of a line loss in transmission. by City Clerk Kent, who earlier in the day received the following letter from Crown Attorney S. F. Washington:

"I am instructed by a ratepayer of the City of Hamilton to bring an action, or make a motion to quash by-law No. 775 of the city passed on July 18, 1908, known as the Light and Power By-law. Before taking proceedings I should be glad to know whether it is the intention of the city to put this by-law, or any part of it, into effect. If I have the assurance of the city that they do not intend to put the by-law or any part of it into effect, then no proceedings will be necessary. As the City Council sits to-night, the matter can be brought before it and you can let me know to-morrow."

There was no discussion over the letter. Alderman Sweeney fired one question at the Mayor.

tion at the Mayor.

"What effect is that going to have on the contract?" he asked. "I nuder-stand the company is going ahead erect-ing poles for 600 lamps for the first of July."

There is nothing to hinder persons ing to law if they have a mind to," Worship replied, and the aldermen

PREVIOUS LITIGATION.

This will be the second time the city has-been tangled up in litigation over the power and lighting contract, passed by last year's Council after two years of fighting. The judge sustained the by-law, but took the view that the Council had power to make a power contract for only one year, without the consent

cit had power to make a power contract for only one year, without the consent of the ratepayers. He held that the lighting contract, for five years, was good. Despite this the Niagara Power advocates insisted that the lighting contract could be successfully attacked. Encouraged by the result of the vote last week the attempt is to be made. It took the Council last night just half an hour to clean up the business, including the power question, which was referred to a special committee. Further evidence of the apparent lack of interest in this matter, as indicated by the by-law returns, showing that over five thousand people did not take the trouble to go to the polls, was furnished by the fact that only seven spectators were in the Council chamber last night, when the question was up. It was significant to the polls, was furnished by the fact that only seven spectators were in the Council chamber last night, when the question was up. It was night, when the question was up. It was reported that an effort would be made to stampede the aldermen and two uni-formed policemen were on hand, but their services were not required.

TO GET INFORMATION.

Seconded by Ald. Applegath, Ald. Jut-ten moved that a special committee be appointed to get the form of contract from the Hydro Commission, and all ther information on the subject, and report back to the Council. Ald. Hopkins wanted the committee to report within two weeks, so there would be no unnecessary delay.

The Mayor explained that there would be no objection to a special Council meeting sooner if the committee could prepare its report in time.

A motion by Ald. Anderson, seconded by Ald. Hopkins, to place Ald. Wright on the committee was voted down on a 12—6 division. The mover and seconder and Ald. Ellis, Applegath, Morris and Cooper were the only ones to vote for it. Ald. Sweeney refrained from voting.

BOARD OF CONTROL. BOARD OF CONTROL.

The Board of Control by-law, which was so strongly endorsed by the people, was given a third reading, which means that next year the Council will consist of the Mayor and four controllers elected from the city at large and the aldermen to be elected from the wards. The salaries of the controllers will be \$1,500 a

Is a Sure Sign of Congestion of the Kidneys. Take "Fruit-a-tives."

Lots of men, and women too, are limping about the house—groaning in easy chairs—or toesing about the bed—because of that nagging pain in the back. The old standbys—not vinegar, porous plasters, liniments, etc.—don't do good any more. You see, you are a bit older now. The kidneys are not as strong as they used to be. And even those "blistering" liniments and plasters won't stimulate the kidneys.

Your trouble is kidney trouble. The kidneys are not diseased, they are overworked and strained. The bowels and skin, which help the kidneys to rid the system of waste matter—have not been doing their share of the work. The kidneys have had to do too much.

What you need is a medicine to cure the bowels niver and skin. This medicine must cure the Constipation by acting on the liver and thus make the bowels move regularly and naturally. This medicine must heal and strengthen the kidneys, and thus relieve the congestion. "Fruit-a-tives" is this medicine. It is the most effective kidney remedy known, and keeps these vital organs in a vigorous, healthy condition. For aged people, for those who work hard, for tired-out women, "Fruit-a-tives" never fail to stop that severe pain in the back and build up the whole system. 50c. Full Settlement of the Grimsby Crossing Cases.

A full settlement has been made of the actions growing out of the level crossing disaster at Grimsby last January, when a sleigh load of people returning from a party were struck by a G. T. R. train, resulting in the death of the Wilsons and Teeters.

Mr. E. A. Lancaster, M. P., and Mr.

F. W. Harcourt, K. C., official guar dian, yesterday filed consent judgment in the actions of Wilson against the in the actions of Wilson against Grand Trunk Railway and

in the actions of Wilson against the Grand Trunk Railway and Teeter against the same company.

In the first case, Mr. and Mrs. Wilson left six young children, and the company pays \$7,000 for the death of the father and mother. Mrs. Wilson, the grandmother, receives \$300 at once for part maintenance, and will draw \$500. a year from the remainder, which is to be paid into court, for the support of the children.

In the other case the company pays \$4,000 for the death of Mr. and Mrs. Teeter, and \$1,200 to Miss Lottic Teeter, for injuries sustained. Mrs. Teeter, the grandmother, receives \$200 of the amount given her daughter, in payment of medical and other expenses, and \$100 for part maintenance of the two children left by Mr. and Mrs. Teeter, out of the \$4,000. The balance of the two children left by Mr. and Mrs. Teeter, out of the \$4,000. The balance of the two children left by Mr. and Mrs. Teeter, out of the \$4,000. The balance of the two children left by Mr. and Mrs. Teeter, out of the \$4,000 will be paid into court to the credit of the children, and from this fund the grandmother will receive \$7 per month for the support of each child.

Although the men are by no means husky in appearance, they juggle buggies, bicycles and other heavy articles in a very easy manner, and the comedians manage to get in enough work to cause a laugh at the proper time. A real Shetland pony is used in the act, and the buggies and bicycles are ones that can be used on the road and ones that can be used on the road and are not made specially for the act. FOILED BY CAT.

Puts Out Spattering Fuse and Burglars Leave Without Booty.

San Francisco, Cal., June 14.—The plans of two safe burglars were spoiled early this morning by a black eat, which extinguished their eputtering fuse. The drygoods store of Lobous Bros., on lower Market street, was entered by burglars, who pried the basement door open with a jimmy and, cutting a hole in the floor underneath the office, made a selection from the stock consisting of silks, shirt waists, unbrellas, handkerchiefs and neckties valued at \$400 and then gave attention to the safe.

They took off the combination knog, poured nitroglycerine into it, attached a fuse, which they lighted and then ran to safety.

There was a black cat in the office which watched their movements, and when it saw the sputtering fuse, if jumped at it and exextinguished it. The cracksmen, apparently, got scared and disappeared without making another attempt to blow the safe. The police soon after arrested two men on suspicion.
