Accidently Shot At Wireless Station

Lieut. Barry Victim of Painful Accident While on Duty Friday Morning

Lieut. Arthur L. Barry of the Wireless Garrison here, was the victim of a painful and serious accident while on duty early Friday morning. He was orderly officer for the day and was making the usual inspection about two a.m. and in passing a spring which is on the grounds, stopped to get a drink. As he stooped over, the 28 revolver which he carried in his pocket, was accidentally discharged. The bullet entered the right arm and after passing a distance of three or four inches, came out and lodged in the unfortunate young man's jaw. Dr. J. A. Park, M.O., was called and succeeded in extracting the bullet, and, although suffering somewhat, the wounded man is resting comfortably.

Lieut. Barry is well and favorably known in Newcastle, coming here some three years, from Fredericton to accept a position on the staff of Har King's Academy, which position he very acceptably filled until the outbreak of war, when he was called out for duty at the Wireless, being an officer of the 73rd Regt. He has on listed for overseas service and only recently returned from taking a qualifying course at Halifax. His many friends wish him a speedy recovery.

Praises For Advocate Job Work

Toronto Printer & Publisher Has Good Words For It.

The following is taken from the September, 1915, issue of The Printer and Publisher of Toronto.

Some very pleasing commercial specimens have been received from the Union Advocate, Newcastle, N. B. Simple, unpretentious designs, composed in a single series of type of harmonizing characters, make these specimens attractive and in good taste. The letterhead of the Maritime Hide Co. is an especially noteworthy specimen. The form of the design is pleasing and conducive to easy reading. Tone harmony has been intelligently preserved, and the spacing of the groups is all that could be desired. The letterhead was printed in bronze blue on cream, linen-finish stock.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Address: F. J. CHENEY & CO., Toledo, Ohio.

"THE SADDEST SIGHT OF ALL" CHILD VICTIMS IN FLANDERS

(Manchester Guardian) The following letters received in Hamstead from two brothers now serving at the front, but in different sections, give a pitiful idea of the civilian life which still persists almost up to the trenches, and recall Miss McNaughton's description of "saddest sight of all—the ambulance bringing wounded women and children from the suddenly bombarded villages." One of the brothers is in the Civil Service Rifles. He says:

We had a very narrow escape a few days ago. An outhouse attached to the billet collapsed like a pack of cards, and unfortunately eight children had taken shelter therein. Their own cottage escaped unhurt. Two men, a woman, and a little girl were killed, and a woman and three children seriously injured. We had been ordered to the dug-outs, but when the old shell dropped it flung debris right upon us. A bit caught me on the shin, but although it pained a bit at first it is now quite well.

I heard a succession of fearful screams, and rushed out and gave a hand at sorting out the dead from the wounded. The officers also helped and our colonel was quite un-manned when he fished up the body of the little girl.

It was a job getting the women to the hospital, which lies about a mile from our place, for the shells were dripping all round the road. I had one end of the stretcher—my eyes and mouth were full of flying dirt before we started, and you can guess how fine a drink of water seemed at the other end. She was very badly hit, and kept crying for her children the whole time, so the boys who were carrying two of them had to walk on either side of the stretcher.

Another shell dropped just as we started and left about ten yards from us. Fortunately it burst forwards, or we should all have been wiped out. It injured half a dozen of the chaps who had been giving a hand, and blew the officers' mess cart into the air. It was exciting.

When we got back we found the little boy of two ready to go down, so had another trip. He had a leg and an arm broken, besides body and head wounds, so I am afraid he can't live. Still, we did what we could for him. He had fair curly hair and blue eyes, and as he lay on a stretcher, such a poor pathetic little figure all swathed in bandages, I thought God again for our insular security.

We then heard that one of our chaps wanted a stretcher, so we put it on a pair of wheels and hurried back. This was the most lively time of all. Every half minute we heard the whistle of an approaching shell and dived to earth. The sergeant of the post office returned at the same time, and at one occasion he dived straight into a bed of nettles. When we breathed once more oh how I laughed, for his face was one mass of white spots. They must have given him socks. Anyway, they would not let the injured man return, for the doctor had bandaged him up, so we had a rest in the dug-out until the bombardment was over. It is easily the most exciting time I have had so far. Of course, it wasn't my job really. But I wouldn't have missed dodging them up and down that road for anything.

THICK, GLOSSY HAIR FREE FROM DANDRUFF

Girls! Try It! Hair gets soft, fluffy and beautiful—Get a 25-cent bottle of Danderine.
If you care for heavy hair that glitters with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine. Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff. You can not have nice heavy, healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots fall out, loosen and die; then the hair falls out fast. Surely get a 25-cent bottle of Knowlton's Danderine from any drug store and just try it.

SHOP IN YOUR OWN CITY FIRST

This "Made in Canada" movement can be brought a little nearer home to each individual by emphasizing this suggestion: "Patronize the stores of your home town." Each man is entitled to spend his own money where it will buy the most—whether it be in Rome or Avon. But in fairness—Is it not wisdom before purchasing elsewhere to see what the stores of our own town have to offer? The prosperity of each of us is tied up with the prosperity of his neighbor. Acquaint yourself with what the stores of your own town are offering by reading the advertisements in The Union Advocate.
