**THIS IDEA IS
WORTH DOLLARS**

Purchasing St. Paul: "Stop tak-
ing stuffy air, only open your motor
car windows and take plenty of
fresh air, for your health's sake."
You'll find fresh air and sunshine
on the highway, to health.
An excellent way to improve the
health of mind and body is to ride
out in the open air. In the spring
time, the world is a happy place to
live in and there are many pleas-
ant things to see along the great high-
way of health.
Fresh air is a stimulating agent
which helps to keep us fit, and taken
together with sunshine it is a true
tonic, benefitting both the well and
the ill. Every person is entitled to a
place in the sun; it is here for the
taking.
Pure air promotes physical and
mental perfection. Breathing deeply
helps to prevent an accumulation of
fat, quickens the digestive processes
and aids in ridding the body of poi-
sonous waste products.
We need fresh, pure air all the
time, sleeping or waking; resting or
working, sick or well; our supply of
fresh air never should be curtailed,
either in quality or quantity.
Nothing can compare with a ride
in an open vehicle out along sunny
parks and into the countryside. There
is gaily in the skies and health in
the woodlands. With each draught
of fresh air, there comes new courage
and greater effectiveness in meeting
the problems of working and living.
Let us partake of the fresh air and
sunshine in abundance. These life-
giving elements will clear up that
old winter cold and cough and bring
red blood again to the veins.
Let us ride in the open, in a frame
of mind to enjoy; dust off the cob-
webs of everyday life and as we ride
let us not only look, but see, noticing
renewal of life in its many forms and
manifestations.
Have your car windows open so
you may have every opportunity to
breathe fresh air. Be suitably dressed
for the open, of course. See that the
car has enough oil, water and gas,
then throw the throttle wide and go
where vim, vigor and vitality await
you—any place where fresh air and
sunshine abound.
Be not afraid of colds. Dress warm.
If you can, select a car with readily
enclosable body to shut out the
scurms of spring, the sudden squalls
or weather. Avoid getting wet and
then remaining in the wind.
There are cars as open as the out-
of doors, yet which can be enclosed
swiftly against extremes of weather.
These are ideal. But keep them open
until storm requires enclosure. If the
storm requires closing only one side
keep the other open. For fresh air is
unseen gold that enriches your
treasury of health.

After Every Meal

Pass it around
after every meal.
Give the family
the benefit of its
aid to digestion.
Keeps teeth too.
Keep it always
in the house. **!!!**

Here and There

The mineral, fish and land re-
sources of British Columbia will
again be extensively advertised at
Wembley this year at a cost of \$18-
000 or \$19,000, according to a state-
ment by Premier Oliver.

The Universal Film Company is
perfecting its plans for filming the
Calgary Stampede this summer as
part of a forthcoming production
in which Hoot Gibson will star.
This will involve an expenditure of
about \$100,000.

Canadian exports to France in
1924 were valued at 482,826,000
francs as against imports from that
country of 333,264,000 francs. There
has been a marked increase in trade
of late years which is attributed
partly to the Treaty of Commerce
and the propaganda work of the
Canadian Pacific Exhibition train.

S. Frank Mussard of the South
African Irrigation Association, Joh-
annesburg, who has just completed
an independent investigation of the
agricultural conditions throughout
Canada has stated that he is "per-
fectly satisfied with the possibil-
ities Canada has to offer the right
type of settler."

"Mountie" the lead dog of the
famous Chateau Frontenac husky
team realized \$1,200 during the
Humane Society tag-day at Toronto
recently. He collected on behalf of
this organization throughout the
city and the tag that was sold was
decorated with his portrait.

Broadcasting of copyright songs
in the United States is declared sub-
ject to copyright fees or royalties
just as much as publication by other
methods of performance. This de-
cision, which has considerable bear-
ing on the Canadian Copyright Bill
now under discussion in Ottawa was
reached as a result of a recent test
case in the United States.

Approximately five millions dol-
lars will be spent in maintaining and
constructing new highways within
the Province of Quebec during the
present year. At present there are
2,586 miles of highway in the pro-
vince stretching into all parts of
Quebec and linking up with main
roads in the U.S. and the sister
provinces to the East and West.

According to a report prepared
by the Merchants Exchange of Van-
couver, forty-two regular steamship
lines are now operating out of that
harbor, the gross tonnage for last
year being 14,473,518 which is over
a million tons in excess of the 1923
figures. The Canadian Pacific Rail-
way is now erecting a new pier there
which will be one of the finest and
largest on the continent.

The Campbell River Company of
White Rock has purchased the en-
tire holdings of the James Logging
Company of Vancouver which in-
clude 35,000 acres of timber lands,
containing over two billion feet of
logs, a saw mill with a capacity of
more than 50,000 feet of lumber a
day, three large tugs and a com-
plete logging outfit. A sum of more
than five millions dollars is said to
be involved.

Arrangements have been com-
pleted to ship 200 books by Cana-
dian authors to be exhibited at
Wembley this year. A special grant
has been made by the Provincial
Government of Quebec to provide
artistic bindings for these books
many of which will be by French-
Canadian authors. That this is to
be done is largely due to the initia-
tive of the Arts, Science and Letters
Society of Quebec City in co-opera-
tion with the provincial government.

**Assuring Your
Business**

A policy of advertising is a policy of life
assurance, and the protection thus secured is
well worth its annual cost.

Old customers die or move away—they
must be replaced.

Old customers are subject to the influence
of temptation—they may be induced to divide
their custom—to do some of their shopping
at a competitor's.

New comers to this community will
shop with you—become regular customers—
if they are invited to do so.

Your competitor's advertising is an in-
fluence which must be offset if you are to
maintain your trade.

Not to advertise regularly to the read-
ers of the UNION ADVOCATE is to leave
your business unprotected.

A WORD TO THE PUBLIC

It is no sign of weakness to follow the lead of
advertising. You owe it to yourself to get the
most for your money, the best goods and the
best service. And if you find that your in-
clination is to shop where you are invited to
shop rather than to continue to be a customer
of the shop which never solicits your good-will
you need have no compunctions of conscience.
