

**THE MARKETS.**  
Continued from Page One.

and the hot weather is what is needed. The market was a nervous one and changes of price either way are frequent and rapid.

**CHICAGO LIVE STOCK.**  
Chicago, August 24.—Kansas City had another heavy cattle supply, revealing serious crop conditions in the southwest. Local supply was very light. Good western cattle steady. Hogs 5 to 10c higher.  
Mixed and butchers, 7.50 to 8.25; good heavy, 7.50 to 8.25; rough heavy, 7.25 to 7.50; light, 7.50 to 8.20; pigs, 6.55 to 8.00; bulk, 7.65 to 8.10.  
Cattle — Receipts, 5,000; steady. Beef, 4.75 to 7.25; cows and heifers, 2.25 to 6.40; stockers and feeders, 3.15 to 5.25; Texans, 4.15 to 6.60; calves, 6.50 to 8.50; westerns, 4.50 to 6.40.  
Sheep — Receipts, 20,000; steady. Sheep, 3.00 to 5.00; lambs, 4.40 to 7.75.

**Y.M.C.A. WILL NOT BE GIVEN OVER TO LADIES**

General Secretary Ward Considers Unfeasible the Proposal to Allow Ladies Use of Gymnasium and Baths One Day Each Week.—Wm. Jennings Bryan to Be Here Oct.-Nov. 19.

The meeting of the board of directors of the Y.M.C.A., called for Thursday evening, September 2nd, will mean that the association is already entering on the campaign for progressive fall land winter work. At this meeting the committees to whom has been entrusted the physical, educational, social and religious work of the institution, will make their reports and will submit suggestions for the furthering of the work for the coming year.

An important matter which will require the attention of the education and social committee at once will be the reception of Wm. Jennings Bryan, who is to address the evening of October 19th. The Bulletin learns that an attempt is being made to have the famous orator spend the afternoon and evening in the city, when an opportunity may be given to the citizens to meet the man popularly known as the Great Commoner. The details of his visit are now being prepared by the joint educational and social committees.

"In connection with the Y.M.C.A. educational classes," said Mr. Ward, general secretary, to a Bulletin representative this morning, "there is a probability that classes will be held to teach foreigners the English language. It is surprising the number of those people who come to the building and can scarcely speak the English tongue. These classes could be held along the same lines as the French classes last winter. In addition to the language work, there will be lessons given in book-keeping and first aid to the injured."

"One item in connection with the work of the social committee is to arrange to make more use of the parlors. This is to be more of a members' room than in the past. The best magazines will be placed on a centre table and the nucleus of a library will be formed."

**Physical Culture Work.**  
"The committee on physical culture will bring in a forecast of the work for the winter months. On this committee are representatives of the various branches of sport and an effort must be made to have them all work in harmony regarding the use of the gymnasium, the bowling alley, the swimming tank and the bath rooms."

"Is there any truth in the report that one day each week is to be given over to the use of the ladies?" Mr. Ward was asked.  
"I have heard something of it, but the matter has never been brought before the board of directors, and if it were to do not think the scheme would be considered feasible at all."

Asked as to the religious work of the institution, Mr. Ward stated that the new plan of holding a Sunday afternoon conference at five o'clock, followed by a light tea, has worked most successfully. During the summer months from 40 to 50 men have attended these meetings and it was natural to suppose that the number would be great increased in the winter months.

**With the Boys.**  
"The boys will be well looked after this winter in the Y.M.C.A.," said Mr. Ward. "Mr. Harlow, the boys' secretary, will soon return from the summer schools at Geneva Park and Silver Bay, where he has been in touch with the best boys' workers in America. He will have many ideas to put into practice in connection with the work among boys in Edmonton."

As an indication of the steady growth of the Y.M.C.A. in Edmonton, Mr. Ward said that 63 special issues this year. This is a great increase over last season. There have been over twice as many frequenters of the baths this July over last, and August will show an equally large increase. The general membership has also shown a great improvement.

**Post Watson Married.**  
London, Aug. 19.—It is announced that Wm. Watson, the poet, was married at Bath, Aug. 11 to Miss. Pring, of Holywell, Ireland. Mr. Watson is fifty-six years old.

**Insurrectionists to Be Deported.**  
Madrid, Aug. 20.—The minister of the interior, Senor De La Cierva, announced that he will rigidly apply to Catalonia the law authorizing the deportation and exile of offenders against public order. Five thousand troops in Galicia have been placed on a war footing and probably will be sent to Genoa, Morocco.

**Alberta's Exhibit at Seattle Fair**

"Undoubtedly one of the very best moves the province has ever made to secure new and desirable settlers, is the way a well known Edmonton business man, who returned on Saturday from Seattle, sizes up the Alberta exhibit at the big A. Y. P. exposition in that city.

The exhibit is located on the second floor of the agricultural building, and in spite of the fact that the space on this floor is only about half occupied, Fred W. Brown, of Edmonton, assisted by Mr. Webster, of Calgary, who are in charge of the display, are kept quite busy, even on ordinary days at the fair, explaining Alberta's great agricultural and industrial resources to visitors who apparently desire information with a view to sooner or later making Alberta their home, rather than from idle curiosity.

The exhibit is attractively arranged and cannot help attracting the attention of the passer-by. It is to some extent a duplicate of the display made at the Dominion fair, Calgary, and some eastern exhibitions last year. In the background is the famous painting, The Advance of the Wire Fence, a scene depicting a cow-boy riding up to a wire fence and finding the old trail no longer a public highway. In front of the big painting is a splendid field of real standing wheat, with prairie chickens and wild ducks flying over it, while at the other edge may be seen a beaver and a timber wolf, and specimens of Alberta's grasses and minerals. Prominent on the wall is the figure of a trumpeter, made of heads of wheat, sending the last call to Alberta; while at other points equally unique and well executed designs are in evidence. Mr. Brown had the assistance of Mr. Bond, who did the decorating in the C. P. R. exhibit, in arranging the display.

**Other Provinces Neglect Opportunity.**  
"The fact is that the display is the province was illustrated early in August when W. E. Knowles, M.P. of Moose Jaw, visited the exposition, and in noting the attention the Alberta display attracted, expressed himself as astonished that Saskatchewan had missed such an excellent opportunity to boost its province. British Columbia is awake to the fact that Alberta has stolen a march on her, and has arranged to hold a provincial display in one of the buildings before the fair is over. It is hardly necessary to state why the exhibit is sure to receive good results for the province. Drawing, as Alberta does, her American immigrants largely from the middle west and Pacific coast states, it enables this province to come directly in touch with the people who are most wide awake to the great commercial and agricultural possibilities of Western Canada, and visitors to the Alberta exhibit go away favorably impressed with the opportunities Alberta has to offer as compared with the other western provinces."

Mr. Brown states it is surprising the number of California people who are interested in Alberta and who, in spite of alleged superior climatic conditions, are only awaiting a favorable opportunity to sell out their holdings in that state to locate in Alberta, a good many of them exhibiting preference for the Peace River district.

**The C. P. R. Display.**  
The C. P. R. display is also a great boost for the province. In addition to showing a great variety of Alberta's products and distributing unlimited quantities of grain, it gives an illustrated lecture is given on the possibilities, and as the enclosure in which the views are shown is almost next door to the space occupied by the Alberta display, those attracted by the C. P. R. picture show naturally pass on to secure more information and information from the officials in charge of Alberta's exhibit. The greatest friendliness exists between the officials, those in charge of the C. P. R. exhibit and those in charge of the provincial display. Enquiries are referred from one to the other on every possible occasion.

Mr. Brown finds considerable eagerness in the newspapers in Seattle and other coast cities to secure information concerning the Canadian west and for the next six weeks he will have a publicity man also on his staff, whose duty will be to supply the daily paper with general information concerning Alberta as well as furnish interviews with all the prominent visitors to the Alberta booth.

**Souvenir Post Cards.**  
Free souvenir post cards are being distributed to all callers, for which there is a great demand. On the back of the card is a view of the display and on the other half of the address side of the card is this message:  
Dear Friend,—I have just seen the Alberta Government exhibit at the World's Fair. Say, they must have a great province. This is as good as 60 bushels to the acre, and from 30 to 40 is common. Oats yield from 100 to 1000 on the same land, and 50 bushels. You should see the imitation wheat field, the grand display of native and tame grasses, and also clover and alfalfa. Vegetables do well there. The climate is ideal for health. Coal is found in all parts of the province. Coal oil and natural gas are also found there. If you are interested write to the Department of Agriculture, Edmonton, or the secretary of an Alberta board of trade for literature."

**Will Discuss Naval Problem.**  
Premier and Other Ministers Gathering at the Capital.  
Montreal, Aug. 24.—Sir Wilfrid Laurier and Hon. Mr. Lemieux, in the city enroute to Ottawa to attend the first Cabinet meeting since the holidays. The naval problem is

**WAR TO A FINISH AT CONGRESS IN AUGUST**

Two Different Factions Will Be in Conflict at Conservation Congress — One Has Roosevelt Behind It and the Other Taft — One Desires to Conserve, the Other to Spend.

Seattle, August 23.—Delegates from Utah, Oregon, California, Idaho, Montana and Colorado now in this city to attend the First National Conservation Congress, which will be held here August 26, 27, 28 say that they intend to take up the Ballinger-Pinchot fight started at the sessions of the National Irrigation Congress in Spokane, and thrust the entire matter out in this, the home city of Secretary Richard A. Ballinger.

Although officers of the Washington Conservation Association, under whose auspices the Conservation Congress will be held, make no statements, it is understood that they are trying hard to prevent a repetition of the Spokane fight. It is the general opinion that a clash between the followers of Gifford Pinchot and R. A. Ballinger is inevitable, and that any session in which both sides endeavor to put the Congress on record for or against either the Ballinger or Pinchot policy is bound to be a stormy one.

**Taft and Roosevelt Policies.**  
In November last year when the State Conservation Convention took place here, State Land Commissioner E. W. Rose, of this State, and E. T. Allen of Portland, Government Forest Supervisor, clashed bitterly over the disposition of state lands in forest reserves, and the same forces that took sides on the smaller controversy, and who lined up for and against the Roosevelt policy of conservation as exemplified by Mr. Pinchot, are planning a fight in the National gathering, saying that at this month's congress interstate forces will be allied but with the same principles behind them as was the case in the state gathering. So whether the fight will be fought by outside delegates or by delegates from within the Pacific Northwest territory, the result will be the same—a fight for the survival of the Roosevelt policy or for the Ballinger policy, which by some, is said to have the tacit backing of President Taft.

**Lumbermen Want Protection.**  
Coast Millmen Declare American Lumber is Being Dumped on Them.  
Vancouver, B.C., Aug. 21.—Sawmill operators of British Columbia, at a meeting of the Canadian lumbermen to be held in Hamilton, Ont., next month, will make another attempt to bring influence to bear on the Dominion government to secure the imposition of an import duty on rough lumber. A tentative decision to this effect was reached yesterday afternoon at a meeting of the British Columbia lumber and shingle manufacturers.

**2,500 Delegates to Be Present.**  
Plans are being made here to receive at least twenty-five hundred delegates to the Conservation Congress. A tentative list of speakers has been prepared, among whom are the following: Senator Chamberlain, of Oregon; Joseph N. Teal, chairman of the Oregon State Conservation Commission; W. K. Kavanaugh and E. P. Saunders of St. Louis; Senator Dixon of Montana; Ex-Governor George H. Maxwell, of Chicago; Hon. James R. Garfield, Ohio; F. H. Newell, chief of the United States Reclamation Service; Hon. Gifford Pinchot, chief of the Forest Service; James Arbuckle, manager of the Latin-American

**HAS THIS STEAMER SUFFERED SAME FATE**

Believed the Menardandra Has Foundered With 250 Souls in Same Storm in Which Waratah Perished—3,000 People Search for Lost Child—Telegraphic Briefs.

Stellaron, N.S., August 23.—Despite the efforts of the 3,000 searchers yesterday, Rudolf Mueller's child, which has been missing since Tuesday last, is still lost. The stomach of some small animal was the only thing found. The searchers were unable to decide whether it was part of human remains or not. An analysis will be made.

Halifax, N.S., August 23.—Frank Schurman, lumberman and merchant of River Phillip, died Saturday as the result of carbolic acid poisoning, which the victim claimed was accidentally taken. He is survived by a wife and five children. The two eldest sons are resident in Calgary.

Chatham, N.B., August 23.—Three hundred employees of the Miramichi Pulp and Paper Mill here struck Saturday morning. Wages for several weeks are overdue. The plant is closed down. It may resume this week some time.

Belleveille, Ont., August 23.—A prisoner named George Ayoub made his escape from the county jail last evening by shooting his way out of the jail yard and when the jailer's back was turned, Ayoub climbed over the wall. He was awaiting sentence and was in plain clothes.

Brantford, Ont., August 23.—The designs committee of the Bell Memorial Association has awarded to W. S. Alward, Toronto, the contract for the completion of the telephone memorial to the dropping of American rough lumber on that market. It is stated that the importation of American lumber into Canada is considerable and cannot be overcome because of the low rates at which it is laid down here, the buyers paying cash, which is the "dumpers" are seeking.

**WAY OF THE TRANSGRESSOR.**

Young Toronto Bank Clerk Gives Himself Up in New York.  
New York, August 20.—Hungry, tattered and without money, Wm. A. Baker, 21 years of age, who said he formerly was a clerk in the Royal Bank of Canada in Toronto, walked into police headquarters tonight and said he wanted to give himself up to the charge of having passed two worthless cheques in Linwood, Ont. He said he arrived in New York on last Monday, with a Canadian dime in his pocket and had since been sleeping in the municipal lodging-house and in parks. Recently, he had tried to get away from the police by shooting himself, but he was returned to Linwood. In spite of his roving life and wish to surrender.

He lost his responsible position with the Royal Bank of Canada a year ago through his own "foolishness," as he put it. Word to his employer was wired to Toronto and Baker is held as a vagrant until an answer is received.

Belleville, Ont., August 23.—A prisoner named George Ayoub made his escape from the county jail last evening by shooting his way out of the jail yard and when the jailer's back was turned, Ayoub climbed over the wall. He was awaiting sentence and was in plain clothes.

Brantford, Ont., August 23.—The designs committee of the Bell Memorial Association has awarded to W. S. Alward, Toronto, the contract for the completion of the telephone memorial to the dropping of American rough lumber on that market. It is stated that the importation of American lumber into Canada is considerable and cannot be overcome because of the low rates at which it is laid down here, the buyers paying cash, which is the "dumpers" are seeking.

London, Aug. 25.—William Crooks, socialist member for Woodwith with his wife, will commence a tour of the Empire in September, spending three weeks in Canada.

**Ontario Has a Will.**

Toronto, August 23.—Donald Sutherland, director of colonization for the Ontario government, protests against newspapers making statements as to the need of men in the West. He says more men go than are needed and there are not enough immigrants coming in to fill the vacancies. Mr. Sutherland's opinion of the trouble as far as Ontario is concerned is that the Dominion government is giving homestead grants of 160 acres, while the immigrants into Ontario do not receive any.

**Newfoundland Will Not Federate.**  
Canadian Associated Press.  
London, August 20.—Sir C. Morris, interviewed today, declared that the arguments in favor of Newfoundland federating with Canada were disappearing. If Newfoundland federated the would not be much the gainer.

**What a Gallon of Gasoline Will Do for You**

A GALLON of gasoline will run one of the efficient 2-horsepower I. H. C. Gasoline Engines for fully 5 hours. That is, you will have full 2-horsepower to turn your machines all that time. It will save you and your family all the hard work of turning the cream separator. It will pump water and grind feed for all your stock. It will saw your wood, shell your corn, turn your grindstone. It will do all these things and many more for you the same day. And for 5 hours' steady work it will cost you the price of one gallon of gasoline. Is not that getting your hard work done at a pretty cheap rate? You will have plenty of other jobs for your

**I. H. C. Gasoline Engine**

There is something for it to do all the time. If it is not working it is not costing you anything. When the engine stops, all expense stops. But it is ready to start up again at the same work or any other work at any moment. There are larger I. H. C. engines that consume more fuel and do more work—you have your choice of a number of styles and many sizes. Vertical 2, 3 and 25-horsepower. Horizontal (stationary and portable) 4, 6, 8, 10, 12, 15 and 20-horsepower. Gasoline tractors 12, 15 and 20-horsepower. Famous air-cooled engines 2, 3, 4, 6 and 8-horsepower. Also a complete line of famous mounding engines from 4 to 20-horsepower, and Sowing, Spraying and Pumping Outfits and Jacks. How much work an I. H. C. engine will do for you and how economically it will do it, you will inevitably come to the conclusion that you must have one of some kind. The International local agent will be glad to supply you with catalogue and all particulars, or write our nearest branch house for further information.
