at the Vatican."

Paying Duty

There is the consolation that the seat always is passing from one side to the other and usually is represented by a Tory and the majority is small. The renewed courage of the opposition is partly due to its successes in byeelections which have now raised the Tories to the most numerous single party in the House of Commons, though the coalition still retains a majority of more than a hundred. Another factor is the substitution o Bonar Law for A. J. Balfour. Though

Law is intellectually inferior to Balfour, his clear convictions in favor of tariff protection represents the main bod, of the Tory opinion and there fore it relieved the internal dissensions which made Balfour's leadership mpossible and kept his party in a constant state of division and irritation. No Reason for Serious Fear.

But there is no reason for seriou
