The Growing Boy or Girl must have Perfect Feet and Ankles to be Strong and Healthy

Do you know how severely these games and sports strain the tender ligaments and muscles of the feet and the ankles? Do you know statistics show that 33 per cent of the school children have "Flat Foot"? Do you know the result of this affliction as it develops through carelessness and ignorance while the child is growing? Do you know that early injuries like turned ankles, sprained ligaments, etc., frequently cause deformity because Nature is not assisted at the proper time by such a simple appliance as

Scholl's "Foot-Eazer"

Scholl's "Foot-Eazer" should be placed in children's shoes at first detection of rotating ankles—turning in or out—and wearing of the heels of the shoes on either side. Shuffling gait, dragging feet, weak ankles, pain in the limbs and back attributed to rheumatism or "growing pains", are frequently caused by weak instep or flat-foot, all of which Scholl's "Foot-Eazer" instantly relieves and permanently corrects.

Scholl's "Foot-Eazer" case, which acts as a supporting arch of the foot, thereby lightens, supports and self-adjusting to all feet and every shoe. Always for men, women and for the children.

A complete line of Men's and Women's Arch Supports. Men's Women's and Children's Ankle Supports just opened. Drop in and be fitted correctly if you have any foot troubles.
