**One Carload, 550 Sacks
GRANULATED WHITE
CORN MEAL.**

Granulated White Corn Meal mixed with Flour makes a beautiful loaf of bread. Try it next time you are using 'substitutes.'

F. McNAMARA
QUEEN STREET.

From Actual Observation!

When we make statements to our clients about our various enterprises, we are not merely guessing. In their interests, and our own, we simply have to know that what we are saying is correct, and the only way for us to be sure of that is to actually see the things we are talking about.

Even now our representative is visiting Chicago, Wabash, Madison, New York, etc., where our different companies are located, and will have an up-to-date, critically-correct report to make on his return.

Do you want to make a net profit of 26 per cent. in 11 months on \$100. If so, ask for details.

Another Unilectric System!

We have recently finished installing one of our Unilectric Plants for Fred Ayre, Esquire, in his country residence at Murray's Pond.

Owing to the fact that the Unilectric machine produces a standard 110 volt current (the same that is used here in St. John's), Mr. Ayre is able to light 4 buildings, a considerable distance apart, without loss of power and without the use of extra large wires. They are also able to use standard electric iron and electric vibrator; also any lamps or fixtures handled in St. John's.

The grounds are also lighted with powerful lights on poles. The interior of the bungalow has been lighted according to Mr. Ayre's direction with drop lights, wall brackets and table lamps with coloured shades to harmonize with the walls and furniture. Mr. Ayre has now the most beautifully lighted country residence in Newfoundland.

We have now 4 Unilectric Plants in successful operation in Newfoundland. Any one interested in country lighting has abundant opportunity to satisfy themselves that the Unilectric has no rival.

Perhaps the strongest feature about these machines is the fact that they do not have to depend on storage batteries, but a small cheap battery can be connected at any time to be used in case of emergency. However none of our customers have found it necessary to do so.

We are also agents for 3 different makes of battery lighting systems and can furnish anything required in this line, but we do not claim that they could compare with the Unilectric.
