permission, the Captain took the case in his own hands and conveyed about 70 people to the cemetery. Acting Mayor Moule was interviewed this morning on the subject. He said: "It seems a great piece of presumption on the part of Captain Foster to run against the wishes of the Council and citizens. I heard that he sent out a number of invitations to parties in the city, and got enough on board to make a trip. The Captain was fawning and cringing to the Council until he got permission to run his boats, and then to show his teeth in this way will not profit him anything. The Council can take away his dock and water privileges, and of course the matter will come up at the Council meeting and be dealt with there." Among the passengers on the boat on Sunday was Aid. Boyd, who stood out in favor of running the boats on Sunday at the Council meeting.
