FUTURE OF LONDON'S RAILWAY. We have now entered upon August, and there is but till the end of this month for the civic authorities to decide on the disposal of the London and Port Stanley Railway, the provisional arrangement with the Michigan Central lasting for that time. The Michigan Central Railway Company gives the city one-half of the gross receipts from the traffic, the city paying some \$1,200 for repairs immediately necessary.

This arrangement, judging by the traffic developed, will pay the Michigan Central Company well, but it is known that the M. C. R. regard the bargain as provisional only, and that another agreement must be struck of a more extended character if the

occupied the minds of many employers of labor in the past few days. The project is to establish a local company of merchants and manufacturers, who will subscribe the capital necessary to run the line on condition that the city lease and maintain the rolling stock, the citizens' company only collecting a current rate of interest for their Various conferences of citizens, members of the Board of Trade, have been held, the unanimous decision being that t would be a serious blow to the business nterests of London if the citizen line were not maintained as an independent railway, thus insuring that it would be a check on rates of freight, especially on coal, iron and other commodities used in the employ-ment of labor and the production of goods. The conference appointed a sub-committee to consider the whole matter, and to formally confer with the with the object of having the matter brought before the City Council. But up to the time of writing the meeting with the mayor had not been arranged.

only, and that another agreement must be struck of a more extended character if the company is to retain control of the line.

There are soveral possible futures for the railway, and upon the choice made will depend, to a very large extent, the commercial and industrial future of this city.

Let us briefly outline them:

The line may be committed to the care of the M. C. R. for a reasonable rental and with proper safeguards for keeping the Port open, encouraging traffic by way of the lakes, and insuring reasonable freight and passenger rates.

Royal Arcanum.

London South Council was efficially visited last evening by Mr. J. W. Hickson, grand regent of the Province of Ontario. A fairly good attendance was supplemented by visiting brothern from London Council. The address of the grand regent was practical and effective, and will reasonable trial and effective, and will reasonable freight and passenger rates. Royal Arcanum. Council were among the visitors.

and passenger rates.

The line may be allowed to again revert to the Grand Trunk Railway, on terms to be agreed upon, as in the case of the Michigan Central.

The line may be offered for lease to independent capitalists in the United States. The council had an offer from Mr. Zerbe, the great Ohio coal mine owner, who offered to develop a traffic between Port Stanley and Ohio, and to maintain the L and P. S. in an independent condition, and pay a rental of \$6,000 a year for the line. This offer was not accepted by the City Council.

There is another alternative open to the city, and the feasibility of adopting it has occupied the minds of many employers of labor in the pass few days. The project is to assablished least agreement on the pass few days. The project is to state the constitution of the branch. The latter would be the property of the city, will be advised to accept the proposition. George Powell's lot on Queen's avenue has two frontages and he has been assessed for block-pavement on both. He presented an approved. A motion that the council be asked to grant the petition, was approved. A motion that the council be asked to build two closets in Victoria Tark, carried. Those present were: Ald, Garratt (chairman), Aldermen T. Jones, to be a few to a fe Coo, Dreaney, Charles Taylor, Mayor Essery, Secretary Bell, Commissione Owen, City Engineer Graydon.

Relative to Education. At last evening's meeting of No. 2 committee of the Board of Education doubt was expressed as to whether Contractor Purdom would have the new addition to Purdom would have the new addition to the Collegiate Institute be ready before the time set for opening. Steps will be taken to make it incumbent upon him to do so before the 19th inst. Janitor Macdonald, of Princess avenue school, was refused the extra pay for which he asked in connection with exam-inations at the Collegiate Institute. One account presented for present

One account presented for passage (among a number of smaller ones) was severely criticised. It was from a plumber. One member asserted that the committee was a "milch cow." The bill was cut down by \$17.50. Messrs. Dewar, D. W. Blackwell and Martyn will look after making the secretary's and inspector's office more presentable. Concurrent upon the objection of EngineerGraydon to putting water pipes into the Collegiate Institute for fire protection on account of the expense incurrable—\$125 without hose—insurance agents will be consulted.
