Special arrangements have been completed, whereby "Going Some" will be offered here at the lowest prices this splendid attraction has ever played to. It is Mr. Small's intention to popularize matinees in London, and with that object in view, has secured a number of the larger attractions, which usually play at \$1 50 prices, to play matinees here at 50 cents. "Going Some" will be the first, and the management hopes that the theatregoers of London will show their appreciation of Mr. Small's efforts by turning out in large numbers to Saturday's matinee. The seat sale opened this morning.

"Two Women and That Man." A play of life in the far north is the theme of "Two Women and That Man" by Henry D. Carey. The play is said to describe an actual romance that happened in the Valley of the Yukon during the year 1898, in which period the play is laid. One of the really attractive features is the two malemuts and the timber wolf that adds much to the atmosphere of the play. "Two Women and That Man" will be the attraction at the Grand Monday, Nov. 15.

Had a Distressing, Tickling Sensation In The Throat.

Mr. Albert MacPhee, Chignecto Mines, N.S., writes: "In Oct., 1908, I caught cold by working in water, and had a very bad cough and that distressing, tickling sensation in my throat so that I could not sleep at night, and my lungs were so very sore I had to give up work. Our doctor gave me medicine but it did me no good so I got a bottle of Dr. Wood's Norway Pine Syrup and by the time I cured. I am always recommending it to my friends.'

Dr. Wood's Norway Pine Syrup combines the potent healing virtues of the Norway pine tree with other absorbent, expectorant and soothing medicines of recognized worth and is absolutely harmless, prompt and safe for the cure of Coughs, Colds, Bronchitis, Croup, Sore Throat. The matter was not expected to have been brought up at the meeting, and 3,-000 delegates were startled when it was popped at them. It was stated that the Lauer Drug Company is acquiring retail drug stores everywhere within the boundaries of the United States, and that this plan will be furthered until enough stores have been procured to justify activity on the part of the United Chemists' Company, a \$20,000 concern, which has frequently loomed Griggs—Great Autobiographies.
