Pain is a blessing in disguise.

It is Nature's danger signal to warn you that there is something wrong in the system.

Headache

While headache may result from a variety of causes, it most frequently denotes a starved condition of the nerves.

The brain is the headquarters or "central" of the nervous system. Here nerve force is consumed at an enormous rate. If there is any lack of rich, red blood from which to form new nervous energy the brain is first to feel it and the head aches.

Headaches may be stopped by powerful drugs, but that is like breaking the semaphore which warns the engineer of danger.

The only wise way is to increase the amount of rich, red blood in the human body by using Dr. Chase's Nerve Food, and thereby feed the starved nerves back to health and vigor.

Not only will the headaches disappear, but you will sleep well, feel well and gradually regain strength and confidence. The Nerve Food will sharpen the appetite, improve digestion and build up the whole system.

In this way the headache will prove a blessing. It has warned you of approaching nervous collapse while yet there is a foundation on which to build good health.

Dr. Chase's Nerve Food, 50 cents a box, 6 for \$2.50, all dealers, or Edmanson, Bates & Co., Limited, Tomonto.
